T. R. LEADING STATE BY 130

California So Close That Official Count Will Be Necessary.

IT'S A REAL NECK AND NECK CONTEST

Belated Aftermath of Tuesday's Struggle Now Straggling In.

BULLETIN.

San Francisco, Cal., Nov. 8.—Wilson took the lead again with a plurality in California of 75 over Roosevelt, with the filing of complete returns from Los Angeles county. The three precincts missing this morning showed a Wilson gain of 210, instead of the expected Roosevelt gain.

San Francisco, Nov. 8.—With 135 precincts missing and Roosevelt leading Wilson on the face of the returns by 130, California was still in the doubtful column today.

Indications were that whatever the findings, the winner's margin would be so small that official count of the entire state probably would be necessary.

MAY GET TWO SENATORS.

Democratic Prospects Still Looking Up in Illinois.

Chicago, Nov. 8.—Sufficient democratic strength in the Illinois legislature to enable that party to elect two senators appeared as a possibility today with the increase of democratic votes in the southern part of the state.

Results of the election insofar as they determined the political complexion of a joint ballot in the state legislature, were slow in appearing at headquarters today, so a conclusive prediction was not attempted by any of the parties. Democrats were hopeful that the new returns would give them possibly 77 members in the house and 27 in the senate, a total of 104 on joint ballot. A majority of a joint ballot is 103. If this result is attained, the democrats will be able to name a successor to Shelby M. Cullom and to fill the place forfeited by William Lorimer. Falling short of this number, the democrats may find themselves compelled to appeal to the progressives for consideration which might give the progressives an opportunity to name a United States senator for the short term.

Who this progressive would be is not clear, although political experts here point to the fact that Medill McCormick, manager of the campaign for Roosevelt, might be a most promising candidate. This is the trend of gossip among political experts in spite of the fact that Frank H. Funk, progressive, defeated for governor of Illinois, has announced his candidacy for United States senator.

Gov. Wilson's plurality in Illinois continued to mount today as returns from the precincts missing last night filtered in. Twenty-four scattered returns gave a net gain of 1,831 votes to the president-elect and increased his known lead over Theodore Roosevelt to 16,783. Only seventeen precincts remain in the uncounted column.

CLAIMING WEST VIRGINIA.

Democrats Believe Their Candidate for Governor Has Won.

Wheeling, W. Va., Nov. 8.—Failure to secure figures on the result of the voting in McDowell county, the home of Dr. H. D. Hatfield, republican candidate for governor, brought out the prediction from democratic leaders today that Thompson, democrat, had been elected. In the estimate of the state's vote McDowell had been credited with a plurality of 4,000 for Hatfield, but not a precinct has been reported, and democrats were claiming this morning that there was something more than a possibility of an even break there, in which event Hatfield's plurality in the state would be wiped out and the official count next week would be required to decide, not alone the governorship, but the remainder of the state ticket. The democratic state committee has been informed of the close vote for governor and

RALSTON 113,553 OVER BEVERIDGE

Unofficial Figures Show Latter Led Durbin by 20,341.

THE SOCIALIST GAIN

Indianapolis, Nov. 8.—Including some unofficial figures with official returns, the compilation today of the vote in Indiana gives Ralston, democratic candidate for governor, 277,781 votes; Durbin, republican, 144,173, and Beveridge, progressive, 164,238. Ralston's plurality over Beveridge is 113,553; over Durbin, 133,618. Beveridge's plurality over Durbin is 20,341.

On the vote for president the revised figures are Wilson, democrat, 282,090; Taft, 151,931; Roosevelt, 158,658, and Debs, socialist, 35,698. This gives Wilson a plurality over Roosevelt of 123,432; over Taft, 130,159. Roosevelt's vote over Taft is 6,767. In 1908 Taft got 348,993; Bryan, 338,262, and Debs, 13,476; Chafin, prohibition, 18,045.

The vote polled for Debs, with returns practically complete, is surprising, large gains having been reported in many counties. The heaviest socialist vote was in Marion, which gave Debs 5,268, but other counties gave him a much larger vote in proportion to the total vote cast.

Only five members of the lower branch of the state assembly will be republicans. One progressive was elected to each branch.

Vote Shows Shortage.

Practically complete returns from all the precincts in Indiana show that there is a shortage of more than 70,000 in the state vote this year from the vote of four years ago. The total vote in 1908 as shown by the official count was 721,126, while the total vote this year, as indicated by an unofficial count, was 649,370. This shows a difference of 71,749.

In 1908 the vote was: Republican, 348,993; democratic, 338,262; prohibition, 18,045; populist, 1,193; socialist, 13,476; socialist-labor, 643; independent, 514; total, 721,126. The following figures are practically correct for the three leading parties this year. The socialist vote, which showed a large increase, was 35,698, while the prohibition and socialist-labor votes may be estimated at 20,000 and 1,000, respectively. The figures are: Democratic, 282,090; republican, 151,931; progressive, 158,658; socialist, 36,210; prohibition, 20,000; socialist-labor, 1,000; total, 649,377.

SAYS HE HAS ADOPTED A POLICY OF SILENCE.

New York, Nov. 8.—Col. Roosevelt motored to New York from Oyster Bay today and visited his editorial office for the first time since he was shot. He said that he had adopted a policy of silence and had no further comment to make on the election. He was feeling fine, he said, and had almost forgotten there was a bullet in his chest.

THE MAN WHO BEAT "UNCLE JOE."

FRANK T. O'HAIR.

Paris, Ill., Nov. 8.—Ask any man, democrat or republican, in Edgar county about Frank O'Hair and you will be told, "As square as a block of wood."

That's why a flood of votes is sending him to take "Uncle Joe" Cannon's seat in congress from a district everyone supposed owned, gagged and shackled to Mr. Cannon.

Also, O'Hair is a scrapper. Big odds against him add joy and zest to the battle—bring glee to the brave Irish heart of him.

He was born right here in Edgar county—in a log house—and he's been scrapping ever since.

He fought his way through De Pauw university law school, working at whatever he could get to do and studying late nights.

He has been fighting ever since he was admitted to the bar—fighting the battle of clients; fighting for improvement in the public school system; fighting for democracy. And he has the reputation

THE CONQUEST OF CONSTANTINOPLE!

Don't Blame the Farmer for High Cost of Living

New Orleans, La., Nov. 8.—Charles F. Sanford, of New London, Ohio, president of the Farmers' National congress in his address to the thirty-second convention of the organization here this afternoon said that "farmers have no conscious or intentional connection with the high cost of living in towns and cities."

He declared that many of the complaints came from people who "are trying to maintain standards built upon sundry luxuries," and that the frugal and economic "are not wailing about the high cost of living."

Mr. Sanford said that this was an era when brain more than brawn must be developed on the farm. He advocated a system of farm credits similar to farming land bonds in France and Germany; the building of good roads; more intensive and less wasteful farming, and the continuation of the government's experimental work in agriculture.

Delegates to the convention discussed this morning a proposal for the merger of all agricultural associations under the name of the United States Country Life association. The advantages of a merger were urged by Assistant Secretary Hays, of the department of agriculture and suggested the American Grange, the Farmers' National congress, the Southern Cotton Growers' association and the Farmers' union for membership. What action would be taken today was not indicated by a preliminary discussion last night.

More than 300 delegates to the congress representing practically all of the southern states and about twenty states of the middle west and west were registered early this morning. Several cities want the convention for next year. A big delegation from Minnesota is here in the interest of St. Paul.

YOUNG BOY HAS LEG CRUSHED OFF

Paul Netterfield, Aged 8, May Die as Result of Accident.

WAS LEAVING SCHOOL

Little Paul Netterfield, aged 8 years, was the unfortunate victim of a most distressing accident shortly after noon today when as he was crossing the Lake Erie tracks near the Wayne Knitting mills he fell under the wheels of a switch engine. His left leg was crushed almost up to the hip, and was amputated just above the knee at Hope hospital, where he was taken in the police ambulance. The boy is in a critical condition, but it is thought that there are no other injuries besides that mentioned.

The lad was walking across the Lake Erie tracks with Alvin P. Leverton, principal of the Nebraska school, and some schoolmates just after school had closed for the noon hour. The switch engine was noticed backing down the track at a fast rate of speed, but the boy evidently thought that he could cross in frotn of the engine. It is thought that he stumbled on the rail as he was crossing, and before anyone could lend assistance the engine had passed.

The unfortunate lad is the son of Joseph Netterfield, of 1809 High street, a lumber buyer. Paul is a student at the Nebraska school.

COSTLY WINDOW IS BROKEN.

Pane Valued at $350 in Old National Bank Falls Out.

The large and costly plate glass window in the Calhoun street side of the Old National bank, which was accidentally cracked late Thursday night, fell under its own weight shortly before 11 o'clock this morning before repair men had opportunity to remove it from the frame. The window was valued at $350, and after it was broken last night it was hoped to save some of the larger portions.

A small crack in the glass at 10:15 o'clock last night resulted in a rumor that robbers had attempted to enter the bank. It was later learned that the glass was broken when a shoe was thrown from the hoof of a horse driven by Earl Wells.

HAD DIED FROM ESCAPING GAS

Matthew Warton is Found Lifeless in Home He Had Just Vacated.

WAS STREET WORKER

Matthew Warton, a laborer, 64 years of age, was found dead at 6 o'clock this morning in the residence at 1123 Cass street, from which his family had moved on Thursday. The plug had been pulled or knocked from an escaping gas pipe, and death was due to asphyxiation. Coroner Kruse is making an investigation to determine whether the case was one of accident or suicide. The body was found lying upon the bare floor, the face of the dead man near the flow of gas.

The household goods had been moved from the residence Thursday morning. Early in the evening Warton, with his son-in-law, went to the vacant house to look after some coal. Both left together, but the aged man returned some time during the night.

Warton had been employed as a street worker by different contractors of the city. Surviving besides the wife he leaves four children—Charles, Floyd, Fern and Ethel. One brther, Edward Warton, resides in Arizona. The following sisters also survive: Mrs. Addie Kunkle and Mrs. Mary Crowl, of Michigan; Mrs. Eliza Stockdale, of Iowa, and Mrs. Rose Holley, of Michigan.

The remains have been removed to the home of his son, Charles Warton, 423 West Third street.

Mrs. Allie Weisenberger, of 1215 Orchard street, who has been sick for about four weeks, is reported to be improved.

AUNT THURSDAY AT 100 HAS NO NOTION OF DYING.

Mitchell, Ind., Nov. 8.—Aunt Thursday Way celebrated her 100th birthday today and many of her old friends and neighbors called and paid their respects. Her health is excellent and she expects to live many years. Mrs. Way was born in North Carolina and came to Indiana when she was eight years old and has lived all these years in the same neighborhood, southeast of Mitchell.

NORTH DAKOTA HAS LYNCHING

Mob of Fifty Overpowers Sheriff; Hangs George Baker at Steele.

HAD MURDERED TWO

Steele, N. D., Nov. 8.—George Baker, in the Kidder county jail here, charged with the murder of his wife and father-in-law, Thomas Glass, was taken from the jail early today and lynched. It is the first lynching in North Dakota within a decade.

One week ago today Baker returned from California, where he had been living and from whence his wife had preceded him by about two weeks, to Dawson, N. D., and entering the home of Mr. Glass opened fire, killing both his wife and father-in-law. The shooting is said to have been the result of family trouble.

Baker was rushed here at once, the feeling in Dawson running high, and every attempt made to protect him here. Early today, however, a mob of fifty men overpowered the sheriff and deputies and taking Baker from the jail hanged him within the city limits. No arrests have been made.

HAS ONLY BEGUN, SAYS WILKERSON

Investigation Into Jack Johnson's Career With White Women.

WANTS BOND LOWERED

Chicago, Nov. 8.—Jack Johnson, the negro pugilist, indicted as a violator of the Mann white slave act, waited for several hours in the United States district court today till Judge Landis was ready to consider his appeal for a reduction of the $30,000 bail given by the pugilist's mother, Mrs. Tina Johnson, for her son's release.

United States Attorney James H. Wilkerson said the federal investigation of Johnson's relations with white women, insofar as they might or might not relate to violations of the Mann act, had "only begun."

Johnson yesterday was indicted by the federal grand jury on a charge of violating the Mann act against trafficking in women. The true bill was returned before Federal Judge Kenesaw M. Landis, who immediately issued a bench warrant for the negro's arrest.

After a spectacular chase by federal agents, deputy marshals, and the police Johnson was arrested and taken to the federal building to arrange for his release on a $30,000 bond fixed by the judge.

At first it was planned to take the negro pugilist to the county jail. Against his tearful protest he was handcuffed to Deputy Marshal Edward Northrup, who started with his prisoner down the elevator in the Federal building.

The negro, however, sobbed and pleaded to be given a chance to get bail, and another opportunity was given him by Assistant District Attorney Harry Parkin. Late in the evening Johnson's mother signed his bond and he started for the residence of Judge Landis to get it approved if possible.

Involves Another White Woman.

The indictment contains four counts. Specifically the negro is charged with bringing Belle Schreiber, a white wom-

VERY HAPPY SEQUEL TO A LONG-RANGE WEDDING.

Wichita Falls, Texas, Nov. 8.—The sequel to a marriage ceremony which was performed with the bride in Amsterdam, Holland, and the prospective husband in Texas, was to take place in Galveston today, when Harry Ten Brick reached there to claim his wife. The unusual wedding, which required the sanction of the Netherlands consul at Washington and officials of the state department, took place several weeks ago. The bride went before an official in Amsterdam and took her vows, while at the same hour Ten Brick registered his pledge with a notary in Wichita Falls. The romance began in Holland several years ago.

JOSEPH J. ROMARY CALLED BY DEATH

Was Trustee of Cathedral for Quarter of a Century.

ILL FOR ONE WEEK

Joseph J. Romary, aged seventy years, one of Fort Wayne's best known residents, and a member of the board of trustees of the Cathedral of the Immaculate Conception for the lats twenty-five years, died at 11 o'clock this morning at his home, 1208 Erie street. Death was due to complications and followed a week's illness. He was for many years in business in this city.

rM. Romary was a native of France. He was born March 27, 1842, near the city of Paris, and came with his parents to America in 1854. The family came directly to Allen county, and he had resided here continuously since that time. He was one of the most active workers in the affairs of the Catholic church in this community. He was married in 1865 to Miss Frances Henry, of St. Joe township. Ten children were born to them, eight of whom survive as follows: Joseph A. Romary, Mrs. Joseph Lauer, Charles A. Romary, Clara Romary, Mrs. H. J. Nichler and Julian, George and Frederick Romary. Besides the widow and children, he is also survived by two brothers and a sister—August Romary, of Arcola; Armand Romary, of Leo, and Mrs. Joseph Carteaux, of Warsaw.

Mr. Romary was a member of the Catholic Knights of America, the French-American society of Fort Wayne, and the Married Men's Sodality of the Cathedral. In politics he was a democrat, and expressed a desire Tuesday to be allowed to go to the polls and cast his vote.

FOUR GUNMEN ARE PLACED ON TRIAL

Tough Quartet Face Court for Alleged Share in Rosenthal Murder.

EACH WILL TESTIFY

New York, Nov. 8.—The four so-called gunmen charged with the actual murder of Herman Rosenthal, for instigating which Charles Becker has been sentenced to the electric chair, were placed on trial today before Supreme Court Justice Goff. The examination of talesmen was begun shortly before 2:30 o'clock.

Until last night counsel for "Whitey" Lewis, "Lefty Louie," "Gyp the Blood" and "Dago Frank" had insisted on a separate trial for each, but an eleventh hour decision resulted in an agreement to try them together. It is expected that all four will take the stand in their own behalf. The state's chief witnesses will be "Bald Jack" Rose, "Bridgie" Webber and the other informers, who were so prominent in the Becker trial.

When the two hundred talesmen reported this morning they were excused until 2 o'clock for the reason that another murder trial was occuping the attention of Justice Goff's court.

BIG BATTLE IN PROGRESS

Terrific Combat Under Way Within 25 Miles of the Turkish Capital.

TURKS MAKE LAST DESPERATE STAND

Surrender of Tchatalja to Bulgarians Expected at Any Moment.

London, Nov. 8.—A great battle is in progress between the Bulgarians and Turks along the line of the Tchatalja fortifications, only some twenty-five miles outside of Constantinople. It is generally believed that this will be the last of the remarkable series of combats which have been going on for upwards of a fortnight with little or no breathing space.

One report received from Sofia said the Bulgarians had occupied the Tchatalja line, but this remains without confirmation. The same correspondents added that a fresh battle had started and was spreading along the Tchatalja line and that the fall of that town might be expected at any moment.

While the Turks have another and more modern line of fortifications between Tchatalja and Constantinople, there is little chance, in the opinion of military experts, that they will make a stand there if they are defeated at Tchatalja. It is reported, however, that the famous Damascus regiments of the Turkish army have been reserved for this last effort to save the capital. There is no fresh news today from Adrianople, which was reported last night to have surrendered.

The position at Monastir and at Saloniki, where large Turkish armies are concentrated, is unchanged, so far as the outside world has been informed. Neither of those fortresses can hold out long, according to military experts, despite the fact that the Greek army, marching on Monastir, has been checked by meeting a superior force of Turkish troops on the way and having to wait for reinforcements from the army commanded by the crown price of Greece. The Montenegrins are finding the Turkish fortresses of Scutaria hard nuts to crack and it is again reported today that they have had to retire across the Boyana river. The Turks, like true Orientals, continue to keep the world guessing as to their true intentions. The Turkish army and people apparently want the war carried on to the bitter end and one dispatch from Constantinople says the Ottoman government has agreed to do this.

UNCLE SAM SENDS CRUISERS.

Tennessee and Montana to Protect American Interests.

Washington, Nov. 8.—Two big American armored cruisers, the Tennessee and the Montana, have been given rush orders to proceed to Turkish waters, to look after the interests of American citizens. The vessels are now in reserve at the Philadelphia navy yard, the Tennessee being the flagship of Rear Admiral Austin M. Knight. They should be ready to sail within 24 hours and under ordinary conditions should reach Constantinople about Nov. 25, if they proceed with dispatch.

GET $40,000 IN A MAIL ROBBERY

Bandits Hold Up Train in Alabama; Escape With Rich Booty.

POSSES TRAIL THEM

Birmingham, Ala., Nov. 8.—Bandits boarded a southbound express on the Louisville and Nashville road at Blount Springs, early today, entered the mail car, awed the clerks by a flourish of revolvers, took possession of several registered mail pouches, then signalled for the engineer to stop the train and escaped in the country a few miles north of Birmingham.

One report said the robbers got loot worth $40,000. Posses are on their trail.

No After-Election Gloom in Taft's Official Family

Washington, Nov. 8.—President Taft met his cabinet in regular session today for the first time since August, when he started for Beverly on his vacation. With the exception of the secretary of state, Mr. Knox, and the secretary of the navy, Mr. Meyer, every member was in his seat.

Stenographers do not report cabinet meetings, but the laughter which penetrated the walls and was heard in the corridor of the executive offices, indicated that Tuesday's defeat had not brought gloom to Mr. Taft's official family.

Subjects considered at today's meeting were many. From the election to filling of several vacancies the discussion covered much ground. The messages which Mr. Taft expects to write in the next few weeks were taken up and ideas for them presented by members of the cabinet. It was understood in Washington today that at present no member of the cabinet intended to quit before March 4.

The feeling of loyalty to the president, is expected to keep every cabinet officer at the head of his department until the administration itself goes out of power.

President Taft today received the first assurance of support and co-operation in his plan to perpetuate the principles of the republican party by the organization of a National Republican club, with branch clubs throughout the country. The president received a telegram from Kansas City, Mo., stating that Jackson county republicans met last night and formed such a club.

TWO EXPLOSIONS ARE DESCRIBED

Wrecking by Dynamite in Wisconsin Detailed by Milwaukee Man.

HOCKIN REPORT READ

Indianapolis, Nov. 8.—Two dynamite explosions in Wisconsin were described by Thomas Burke, Milwaukee, a hoisting engineer, at the "dynamite conspiracy" trial today. As a non-union workman, Burke testified, he was working at Green Bay, Wis., when on Nov. 21, 1909, someone appeared on the job during the night and destroyed the property by dynamite. Burke also said he was in Milwaukee on May 26, 1911, when an explosion caused $50,000 loss and damaged a steamer near the docks.

The government read a report written by Herbert S. Hockin to John J. McNamara in which Hockin said he had talked to William E. Reddin, an iron workers union official, at Milwaukee, concerning conditions in Wisconsin. The report as read cautioned McNamara to keep the information secret from everyone except Frank M. Ryan, president of the union.

More letters were introduced by the government to sustain its charge that explosions over the country grew out of a "reign of violence" in a fight against employers of non-union labor. An alleged confession by Philip A. Coley, New Orleans, member of the executive board of the Iron Workers' union, that he hit and seriously injured a workman in New Orleans and then "fixed it up with the judge" so he would not be sentenced even though he pleaded guilty, was read by the government. Letters signed by Coley and, addressed to McNamara expressing concern over the outcome of assault charges against Coley were read.

300-POUND WEDDING CAKE.

Baker Presents It to His Daughter at Her Marriage.

Philadelphia, Nov. 8.—One of the most extraordinary wedding gifts ever presented to a bride is a 300-pound wedding cake presented to Miss Mamie Morgenstein by her father, Bennett Morgenstein, a baker. It is said to be the largest cake ever baked in this city.

Among the ingredients in the cake are 100 pounds of raisins, 100 pounds of currants, 30 dozen eggs, 75 pounds of sugar and 25 pounds of butter. It stands six feet high and is artistically decorated.

Mr. Morgenstein and his two sons spent two weeks making the big confection. They say it will last without crumbling or melting for twenty-five years.

TEACHERS DISCUSS DRAMA.

Indianapolis, Ind., Nov. 8.—The drama will be the chief topic discussed at the second annual convention of Indiana teachers of English who began a two days' session at the board of trade building. Prof. W. S. Jenkins, of Indiana university, was to speak on the modern drama followed with a round-table discussion led by A. L. Murray, of Hammond and others. Some aspects of the drama will be discussed by Will D. Howe, of Indiana university, at a dinner to be given this evening.

MURDER IS SUSPECTED.

Salisbury, Md., Nov. 8.—The body of Mrs. Gertie Raine was found in her home here today under circumstances pointing to murder. The house had been set afire but the body was discovered before the flames destroyed the building. It is said that a man armed with a gun was seen leaving the house early today.

Dog Daze.

Quails and partridges deserted parts of France when the acroplane first made its appearance there. But now they have begun to return to their old haunts. Before returning in force the partridges sent some of their number to scout for them.

TO PAY ELECTION BET ON SATURDAY NIGHT.

One of the first of the many freak election bets made during the campaign just ended, will be paid Saturday evening at 8 o'clock, when George Tigges, bull moose, a clerk at Al Hazzard's cigar store, hauls Frank A. Schramm, democrat, pattern maker at the Wayne Oil Tank and Pump company, around the Allen county court house in a red wheelbarrow.

GATHERS NEWS IN AEROPLANE

Correspondent Flies Five Miles to Wrecked Schooner.

IS THE OREGON WAY

Portland, Ore., Nov. 8.—How a newspaper proprietor raced in an aeroplane to the scene of a wrecked gasoline schooner, from which six men had perished, was told today by F. D. Guyton, the Marshfield correspondent of the Portland Journal.

Guyton received word that the schooner had been smashed to bits when it crashed into a submerged jetty early today. He ran to the shore from his office after having sent a bulletin to Portland. The wreck was about twelve miles from Marshfield. Guyton went to several captains, but they were unwilling to go to the spot where the Osprey had been wrecked. He was told that he would have to wait several hours before he could get the details of the wreck.

The newspaper man was in a dilemma. He had no craft, and despite the queeries that kept pouring into his office each time he returned there out of breath he had no details to send.

Suddenly it occurred to Guyton that his friend, Si Christofferson, had an aeroplane. The wind was pretty strong, but Guyton knew that Christofferson would brave any reasonable weather.

"I want to go to where that schooner was wrecked," Guyton told his friend.

Christofferson smiled at his friend and tantalizingly told him that he had better get a boat. Guyton paid no heed to this remark.

"You've got to take me out there," he told the owner of the aeroplane.

"Right you are," said Christopfferson, and in a few minutes the air craft was ready.

The reporter, acting as if it were an every day occurrence, stepped in the aeroplane—something he had never before done in his life—and was dashing through the air at a speed of forty miles an hour.

The biplane soared safely over the bar despite the high wind. It went around the spot where the Osprey was wrecked. The biplane swooped down as near as it was safe to the wrecked schooner. From there the reporter saw the fragments of the vessel swept away by the rough water.

On the first trip the two men in the biplane saw some of the wreck, and it was decided that another visit should be paid to the scene. By that time the life saving crew was at work. The tug Rescue got near enough to the wrecked schooner to throw a line to Captain Johnson. He broke away from the line and was washed into the sea. Captain H. Johnson, of San Francisco, a passenger, also lost his life, as did four of the crew.

The aeroplane then swept back to Marshfield, whence Guyton sent in a thrilling account of the attempted rescue and the sight of the wreck from a height of a couple of hundred feet.

AGED PERSIAN, PRISONER FOR HALF A CENTURY, COMES TO AMERICA TO PREACH GOSPEL OF UNIVERSAL RELIGION.

Man Who Advocates What Is Good in All Religions, Talks on Modern Conditions and Tells Why Politics Cannot Advance Until Women Have Right to Vote.

Out of prison comes the first missionary from the east to the west. His name is Abdul Baha Abbas, and he spent 56 of his 67 years in prison. He comes to preach the oneness of God, the oneness of religion, the oneness of humanity, the eradication of prejudice, universal peace.

This aged philosopher is head of the Bahai movement, which teaches the fundamental unity of all creeds. He arrived in San Francisco recently for a stay of three weeks. During this period he will speak from the pulpits of a number of churches of varying denominations, and will address the students of two universities.

Abdul speaks in Persian and Turkish, and his sermons are repeated by an interpreter.

"America is a prosperous country," he said. "The wealth of the nation is increasing, its development is phenomenal. It has civilized men and gracious ladies, but they are all submerged in materialism.

"The American people are a hospitable people, stranger loving and very noble. I have found them very courteous."

"How about woman suffrage?" the interpreter asked in jerky Persian.

"The world of humanity is possessed of two wings, one represented by the male, the other by the female," was the reply. "Both must be strong in order that the world of humanity may fly. Equality of rights and prerogatives of men and women is finding foothold in America faster than in other parts. Until suffrage is established the body politic will not achieve its progress. Women are the first educators of men. Hence womankind must be educated until they reach the level of men.

"I have come to America to advocate international peace and the oneness of humanity, not for sightseeing," the philosopher replied when asked for an opinion of the amusements of the country.

"We have paid no great attention to fashions and picture hats. We have no regard for the external clothes. If a woman is virtuous, refined, near God, in our estimation she is praiseworthy and revered, no matter in what clothes."

ABDUL BAHA.

Abdul Baha urges the American people to develop a divine as well as a material civilization, adopting what is best of the creeds of christians, Mahammedans, Buddhists, Shintos or Jews. Out of Persia has come one to refute the fatalistic teachings of Omar Khayyam.

Abdul Baha Abbas is the son of Baha Oliat, the founder of the Bahai movement, which he originated in Persia in 1844. Because his teachings did not meet with the approval of the orthodox state religion, he was exiled. With his faithful little band of followers he went first to Bagdad, thence to Adrianople, and finally to the prison city of Acca, at the foot of Mount Carmel in Palestine, in 1868.

Abdul Baha, now 67 years old, was only nine when he accompanied his noble father to prison. When it was found that they preferred to give up all worldly possessions rather than their high principles of religious liberty and human equality, their estates were promptly confiscated by the government. Abdul Baha lived in prison with his father till death took him in 1892. Abdul Baha then became the leader of the movement.

When the new constitution was declared in Turkey in 1908, Abdul Baha was freed with all the other prisoners, but when his release came he still lingered. When asked why he did not leave that detestable spot he answered: "I have so many poor friends here who have no other place to go that I cannot bear to leave them. Besides, I have become accustomed to the prison, as the bird becomes accustomed to the cage; the door is open, but the bird is in no hurry to fly away." However, after another year, he yielded to the urgent invitations and departed for Egypt, where he spent many months, speaking, writing and teaching. Last year he visited London and Paris and was given splendid receptions.

After his return to Egypt from Paris Abdul Baha decided to visit America, and arrived in New York city last April. Since then he has visited Washington, Boston, Chicago, Philadelphia, Cleveland, Buffalo, Pittsburg, Green Acre (Me.) and Montreal, where he was most enthusiastically welcomed.

ABDUL BAHA'S OPINIONS OF UNITED STATES.

"The most wonderful thing in America is its liberty. This nation is in reality free, and this government is fair."

"International peace today is the greatest issue of humanity."

"The American people are hospitable, but their civilization is one of materialization. They should learn idealism, they should receive radiance."

"The world of humanity is possessed of two wings—one represented by the male, the other by the female. Both must be strong in order that the world of humanity may fly. Until suffrage is established, the body politic will not achieve its progress."

NOTHING EQUALS S.S.S. FOR OLD SORES

Nothing equals S. S. S. as a cure for Old Sores because nothing equals it as a blood purifier. The source and supply of every chronic sore is impure blood; the circulation is infected with germs and morbid accumulations which are being constantly deposited into the open place. This causes ulceration and inflammation of the flesh tissues and produces a condition upon which salves, washes, lotions, etc., can have no curative effects. The blood must be purified of all infectious matter before the circulation can nourish the flesh tissues and stimulate them to the healthy condition necessary to heal the sore. S. S. S. heals old sores by going down to the fountain-head of the trouble and driving out the germs and morbid matters which are keeping the ulcer open. Then as new, rich blood is carried to the place, the healing begins, all discharge ceases, the inflammation leaves, new tissue and healthy flesh are formed, and soon the ulcer is well. You are not wasting time when you use S. S. S., but you are giving yourself the benefit of the very best treatment for old sores. Book on Sores and Ulcers and any medical advice free. S. S. S. is sold at drug stores.

FOREST RESERVE IN CANADA.

Large Area Near Lesser Slave Lake Will Be Set Aside.

Edmonton, Alberta, Nov. 8.—Official advices have been received in Edmonton from the forestry department at Ottawa that the federal government will creat a reserve of 4,788 square miles on the shores of Lesser Slave lake, north of here; also that a large area north of Lac la Biche will be set aside by act of parliament. Roy Cameron, who had charge of the cruising work, reports there is fully 350,000,000 feet of timber available on the southern shore of Lesser Slave lake, also large areas of pulp wood, adapted for commercial purposes. The land, he says, is suitable for mixed farming and live stock. Other forest areas are to be established in the provinces of British Columbia, Alberta, Saskatchewan and Manitoba. The forestry department is also investigating the timber possibilities of the coast and prairie provinces.

WILL SELL OLD FRIGATE.

Navy Department Dooms the Wabash After Nearly Sixty Years.

Washington, Nov. 8.—The wooden freighter, Wabash, which for thirty-seven years has been stationed at the Boston navy yards as receiving ship, is to be sold by the navy department.

The Wabash rendered distinguished service in the United States navy following her launching in 1853. As flagship under Commodore Hiram Paulding it brought back to the United States the soldiers of Gen. Walker, the filibuster, who tried to subjugate all Central America. During the civil war it participated in the blockade of southern ports and was the flagship of Admiral Dupont in the battle of Port Royal.

Its latest active sea service was from 1872 to 1874, when it was the flagship in the Mediterranean squadron.

Fort Wayne's Growth.

The statistical fact that within the past fifteen months a total area of some 585 acres has been added to the city of Fort Wayne only partially indicates the splendid growth we are making. An occasional trip through the suburban district amounts to a revelation to the citizen who is interested in keeping himself informed of the rapid pace Fort Wayne is setting in the matter of healthful expansion. New homes are going up in every direction, the business area is widening and there is a full complement of new buildings and enlargement of present quarters for manufacturing and industrial development.

Down near the business center of the city there is also much new work under construction, and so great is the growth that the building trades have not been able to keep pace with the demand because during much of the season at least, it was impossible to get an adequate number of craftsmen. It has not been a "boom." Fort Wayne never indulges in that sort of thing. The city's stride in growth is regular, steady and substantial. Andrew Carnegie recalls that in passing through Fort Wayne with a friend more than half a century age the friend remarked to the future iron-master that he thought Fort Wayne would "be a town, some day." It has certainly measured up to the prophecy.

It will be observed that despite the result of the election, President Taft is still able to discern sufficient grounds for gratitude to warrant him in issuing a Thanksgiving proclamation. And with the president yet able to cheer up, it shouldn't be a difficult task for the rest of us to do the same.

Latest returns from the remaining states indicate a disposition to make it unanimous.

It is much to be hoped that the fact that the election is over and that most people are anxious to forget politics for a time, will not result in failure to thoroughly investigate and properly try the cases of those accused of registration frauds in Indiana. Regardless of results, no man should be allowed to pollute the integrity of the balloting in Indiana, and in the slang of the day "get away with it." It is to every citizen's interest that political expression in this state as in others should be absolutely fair and unquestioned, and punishment ought to be swift and certain for those guilty of attempt at fraud of any kind, either in registration, in voting or in counting.

The Elkhart city council proposes a public utilities commission to inquire into not alone coal prices in Elkhart, but also to look into water, gas, telephone and electric lighting charges, and make a report to the city in January. What Elkhart will doubtless discover is that they're high because they're high. The really important information which the rest of the country will await from Elkhart is how we're going to help it.

TWENTY-FIVE YEARS AGO

What the Sentinel Had to Say About Persons and Events Twenty-Five Years Ago.

Judge S. M. Hench returned yesterday from New Castle.

Miss Kate Richard, of the H. S. club, has accepted a responsible position in the establishment of H. D. and R. F. Poppel, on East Washington street.

The Ladies of Westminster seminary have sent out cards for an art reception at that flourishing school for this afternoon and evening.

Mrs. J. Nirdlinger, of Toledo, who has been in the city for several weeks visiting her mother, Mrs. D. Zukind, of West Jefferson street, left yesterday for Laporte, Ind.

Charles Armstrong, of 126 East Maumee avenue, was agreeably surprised Saturday evening, it being his forty-second birthday.

Rt. Rev. Bishop Dwenger, of Fort Wayne, today dedicated a new Catholic church at Wanatah. Many attended the ceremonies from this city.

The Wayne street M. E. Sabbath school gave an entertainment at the church parlors. The entertainment was under the supervision of Professor Woolsey and W. D. Strickland.

City Treasurer Berghoff will receive taxes the last part of this week without penalty.

The Gatling Gun squad will hold a business meeting tonight at the Robinson house.

Mrs. A. Heilbronner will leave tonight for Harper, Kan., to visit her daughter.

George Clayton, a spice salesman, yesterday sold A. C. Trentman a carload of Jersey baking powder, the largest order ever placed in Fort Wayne.

County Treasurer Mowrer closed his office for settlement this morning, the regular tax paying time having expired.

Drs. Etemen and McGovern mave trepined the skull of H. P. King, a Van Wert confectioner, who was injured on the Pittsburg.

At the state Y. M. C. A. convention at Crawfordsville, J. W. Cromwell, of this city, was named as one of the vice presidents. R. M. Hayes, also of this city, was appointed chairman of the committee on resolutions.

Louis Fox went to Chicago last evening.

PATERNAL GOVERNMENT.

(Pittsburg Dispatch.)

Those who have risked pneumonia in chilly cars or sweltered in stuffy ones and have had to "grin and bear it" will read with sceptical amazement of a recent verdict in Canada. A passenger arriving at a railroad station found the train very late and although the weather was raw and wintry no shelter was available. He became chilled, developed a cold that laid him up for six months and on recovering sued the railroad for failure to provide shelter. According to the Canadian law the railroad is obliged to furnish such accommodation and after a very brief proceeding the invalid passenger was awarded $1,500 damages for medical expenses and the loss of wages.

No doubt the company considers it has been ill used and regards the judgment as an outrage. But if the transportation service at that point had been competitive as any private business it would not have required a law to compel the company to provide accommodation for its patrons. It is this reliance on monopolistic entrenchment that leads to lack of consideration for the public and in turn to the popular antagonism to public service corporations. The Canadian view that the law should compel the proper accommodation of the public is the inevitable conclusion when popular comfort and health are ignored by corporate indifference.

ONE OF THE BIGGEST ISSUES.

(South Bend News.)

Charles Sumner once declared that the schoolmaster and good roads are "the two most important agencies to advance civilization." That was years ago, but it applies just as pointedly today as then, and in the meantime the schools have been making great strides. The schoolmaster has performed a great service, his figure looms big, but not so with the roads, and only recently has the good roads movement received anything like the emphasis which should have been given it years ago; which should have been continuous.

Sumner regarded the common highways of the country the veins of commerce and civilized intercourse. This was true then and it is true today, despite the vast changes that have been wrought in methods of transportation since the time of Charles Sumner. To day the railroads are the arteries of commerce, while the highways play the same important part they formerly did.

Right now one of the greatest needs, educational and economic development considered, is good roads. Right now, thanks to the emphasis which leaders in the movement are putting on the issue, the need is becoming more generally understood and altogether likely to be effected.

A well known writer recently said that the question of good roads outranks any other except sound financing, maintaining the public credit. This writer asserted that it is of vastly more importance to the people directly than the Panama canal, irrigation of the semi-arid lands of the west, or the lakes to the gulf or any other waterway, and this same writer asserted that each and every one of the propositions named is important.

Good roads important? Have you ever really considered the question? The world's food supply passes over country roads! Just that; and if roads are worse than usual, if there is any interruption of traffic upon the roads, there is a consequent depression in market conditions. Simply because of erratic and irregular delivery to meet a constant and uniform demand. Thus products are and have long been in reality sold on conditions of the roads. And remember in this connection that 92 per cent of the highways of the country are unimproved. There is much talk each year of car shortages and the consequent danger of trouble in moving the crops. As a matter of fact, the original movement is subject to the vicissitudes of road conditions.

Sumner's declaration that good roads are one of the two most important agencies to advance civilization holds good today exactly the same as years ago.

UNDISTURBED PROSPERITY.

(Kansas City Star.)

No presidential campaign in recent years has caused less disturbance to business than the one which ended with Tuesday's elections. Republican campaigners undertook to frighten the voters with their usual nonsense about what would happen to the country if the G. O. P. should be dislodged from power, but their warnings made no impression on the public mind and trade has gone on growing all through the campaign, and October bank clearings at many cities, including Kansas City, were the largest on record.

Even the New York stock exchange failed to reflect uneasiness over the outcome. The explanation is simple. Business and finance is on an unusually stable basis with the commercial and industrial energies of the country engaged in marketing big crops and in supplying the expanding demands arising from the large purchasing power of the farmers. There is a minimum of speculation in business. No such volume of transactions ever went through the banks with so little element of inflation arising from speculation.

With the election out of the way there is every reason to expect that the business of the country will go on expanding. It is a prosperity era, with all the elements of substantial and continuous growth in trade.

Clears Stuffed Up Head and Catarrh Disappears

Breathe the Healing Air of the Eucalyptus Forests of Australia and Quickly Get Rid of Catarrh.

Hyomei will banish catarrh if you will breathe it a few times a day. It is the only remedy of its kind before the people that can penetrate into every nook, corner, fold or crevices of the mucus membrane and destroy the microbes.

HYOMEI is squeezed from the green leaves of the Eucalyptus trees of inland Australia, where catarrh does not exist, and combined with Listerian antiseptics. Pour a few drops into the inhaler and breathe this mighty germ destroying air; an air more healing than that of the pine covered Adirondacks.

Notice how quickly that stuffed up head clears; keep at it a few days and your suffering and hawking and discharge of obnoxious mucus will cease entirely. Then continue until every germ is destroyed; until the soreness and dryness in the throat have disappeared. HYOMEI is guaranteed for catarrh, coughs, colds, sore throat, croup, deafness caused by catarrh or money back. Complete outfit, which includes inhaler, can be obtained for $1.00 at Meyer Bros. Co. and druggists everywhere.

To break up cold in head or chest in a few minutes, pour a scant teaspoonful of HYOMEI into a bowl of boiling water, cover head and bowl with towel and breathe the vapor until blessed relief comes in a few minutes.—Adv.

Precious Health for Men.

If a valuable secret of health was revealed to some men would they profit by it? Thousands fruitlessly pursue pleasure, because their recuperative powers and endurance are not in the same condition as in youth. There comes a time in every man's life when help is required if he would enjoy life's greatest functions keenly and feel the rich, red blood surging through his being and radiating his power and vitality through the flash and fire in his eye, the smile of confidence and strength in his face and the vigor and vitality in his manly walk and carriage.

The help required in the vast majority of cases may be said to consist of an artificial aid to nature in the form of medical treatment for the specific purposes of transforming, through the vital organs, such as the stomach, liver, kidneys, heart, etc., the food and drink partaken of so that the blood receives an increased proportion of those elements necessary to the fulfillment of man's duties in the intensity of spirit as manifested in those of perfect health, be it work, recreation or pleasure. Nothing more valuable and certain for such a purpose is the formula much prescribed by a famed physician, but which can be prepared by anyone at home, or by a well stocked pharmacy. Mix three ounces of compound syrup of sarsaparilla with one ounce of compound fluid balmwort and let stand two hours, ounce tincture of cadomene compound essence cardiol and one ounce tincture of cadoomene compound (not cardamom). Shake before using and take teaspoonful before or after meals and one when retiring. Anyone can mix this and the results from its use are truly astonishing.

Doctor Saves Life of Baby by Record Operation.

New York, Nov. 8.—The skill of Dr. William H. Phillips, of Euclid Heights, has saved the life of little Clara Claire, two years old, in Huron Road hospital, and restored happiness to the parents of the rosy cheeked little girl. Clara swallowed a nickel three days ago and was taken to the hospital slowly choking to death. Pedro and Marietta, the parents, came to the hospital, too. They could not leave Clara.

Thursday afternoon an X-ray photograph was taken of the child's throat. The nickel had dropped down to the esophagus. In a week it would have shut off the child's breathing. An operation might kill Clara, but Pedro and Marietta would take the chance.

Dr. Phillips operated Saturday. With a delicate instrument he probed into the esophagus and withdrew the coin. No incision was made.

Baby Clara will get well. Hospital out a precedent in medical annals and credit Dr. Phillips with saving the baby's life.

How to Have Red Lips!

The girl with red lips and pink cheeks may be be thankful, for both denote health — vigorous, forceful, magnetic health, and while it may be impossible for some to attain, owing to morbid states of health, yet a vast majority of seemingly healthy young women and men are almost colorless, because of a lack of red blood corpuscles. When the blood is improved and enriched with these red corpuscles, the weight increases and a beautiful tint appears on the cheeks, while the lips assume a healthy red color. Many physicians and beauty doctors prescribe three-grain hypo-nuclane tablets which are said to invariably increase the red blood corpuscles after a course of treatment lasting several months. The nerrous system and general health also improve rapidly. The best physicians and apothecary shops supply this tablet in sealed packages.

YET POURING IN UPON MARSHALLS

No Cessation in Flood of Congratulations to the Governor.

TAKES BUNDLES HOME

Indianapolis, Nov. 8.—When Governor Marshall left his office shortly before 5 o'clock yesterday afternoon he carried under his arm a big bundle of letters and telegrams received during the day. He took the second day's consignment of congratulatory messages home to be read by Mrs. Marshall.

Three hundred letters came in the mail and fifty more telegrams increased to nearly 500 the number received since the election. Before the end of the week th governor will begin the task of answering the many messages. He spent most of the day in receiving visitors and reading messages, and late in the day he visited a dentist.

While many men prominent in public and political life have sent their congratulations, most of the telegrams and letters have come from personal friends of Governor and Mrs. Marshall. Not a few of the messages are from persons they met while on a western trip near the end of the campaign. A number of the messages from California, where the women voted for president for the first time, give Mrs. Marshall, as well as the governor, credit for placing that state in the democratic column.

Old Neighbors Are Visitors.

Julius Sanders, superintendent of the Columbia City public schools, was one of several visitors from the governor's home town to the executive offices. Many visitors came from other Indiana cities.

A congratulatory message from Coffeyville, Kas., was signed, "H. W. Christie, the plumber who did the work on your house." Mr. Christie formerly lived in Columbia City.

Among those from whom messages were received were Senator Henry F. Asher of Arizona, James Hamilton Lewis of Chicago, Governor J. E. McCreary of Kentucky, H. L. Myers of Hamilton, Mont.; Robert E. Manly, delegate from Philippine Islands to the Baltimore convention; Gardner Greene, Alabama member of the notification committee; Governor Fred W. Plaisted of Maine, Nicholas Bowden of San Jose, Cal., and J. O. Davis of San Francisco, Cal.

In a telegram to Mrs. Marshall, Jennie Leland Durst, chairman of the woman's democratic state committee of California, said:

"The men of our party concede that at least half of the credit for placing California in the democratic column belongs to the women."

steps are being taken in every county to insure fairness when the official canvass of the vote takes place next week.

CLOSE IN WYOMING, ALSO.

Wilson Has Probably Won by 1,000 Over President Taft.

Cheyenne, Wyo., Nov. 8.—Returns from approximately three-fourths of the precincts of the state indicate that Wilson carried Wyoming by a plurality of 1,000 over Taft. Incomplete returns from 19 out of 21 counties give Taft 11,589; Wilson, 12,414; Roosevelt, 5,700.

ROOSEVELT'S LEAD GROWING.

Minnesota Expects to Give Him Plurality of 20,000.

St. Paul, Minn., Nov. 8.—Returns coming now from the rural districts of Minnesota continue to increase the lead attained by Theo. Roosevelt over Woodrow Wilson. He is now 16,141 votes ahead of the presidential nominee and progressive party leaders declare the final count will bring his plurality near to 20,000. Indications are that the socialists and prohibitionists have both made gains over their vote of four years ago.

For United States senator Knute Nelson, republican, leads all other candidates with James Mannahan, also republican, for congressman at large, next.

The entire republican state ticket has been elected. The state legislature will be as follows: Republican, 98; democrats, 90; socialist, 1; prohibition, 1.

NICK LONGWORTH'S CASE.

Official Count Has Not Yet Turned Defeat Into Victory.

Cincinnati, Nov. 8.—The official count which will be necessary to determine whether Congressman Nicholas Longworth has been defeated by Stanley Bowdle, democrat, began today and probably wil not be completed before Monday. The unofficial count which gave Bowdle a plurality of 96 votes had not been changed as a result of the first several hours official count.

TAFT IN SECOND PLACE.

Crowds Mr. Roosevelt Out of Position in Colorado.

Denver, Col., Nov. 8.—As the count of ballots continues the standing of the presidential candidates this morning shows Taft has gone into second place, while the returns last night showed him to have been more than 10,000 votes behind Roosevelt. Taft's lead over Roosevelt apparently has reached more than 13,000, while Wilson's plurality as given last night is reduced more than 500. Returns from 1,366 of 1,412 precincts give Taft, 55,683; Wilson, 86,212; Roosevelt, 42,213. Wilson's plurality over Taft, 30,529.

DEMOCRATS WIN IN IOWA.

Des Moines, Iowa., Nov. 8.—The returns at noon today together with corrected totals indicate positively that E. G. Dunne, of Mason City, democratic candidate for governor, had defeated his republican opponent, George W. Clarke, by a plurality exceeding 4,000.

Tomorrow will be a busy day. Trade as early in the day as possible.

BURGLAR GOES TO CIRCUIT COURT

Fordham Pleads Guilty to Burglary Charge and is Bound Over.

VAN DINE UNDER BOND

August Fordham, the man who burglarized the Franke saloon last Friday night, pleaded guilty to a charge of burglary in the municipal court this morning, and Judge Mungovan held him to the circuit court, and fixed his bond in the sum of $5,000.

Held for Loitering.

Wilbur Van Dine is being held until next Friday on a charge of loitering, but it is thought a more serious charge will be placed against him. His bond was fixed at $100. It is charged that Van Dine has been working the residents of Fort Wayne for two years, and that he solicited clothes for a pressing club but sold them instead. Another charge against Van Dine is that he stole an overcoat from the rooms of Don Vendrick, of 201 West Berry street. Several second-hand men and pawnbrokers have identified Van Dine as the man who brought the Vendrick overcoat into their store for sale.

Drunks on Docket.

Earl Wells, charged with drunkenness, drew a continuance until tomorrow morning, and is held udner $50 bond. The police claim that Wells drove a horse at breakneck speed down Calhoun street last night, and as he neared Berry street one of the horse's shoes flew off and struck the plate glass in the Old National bank building. A small hole was made in the window. The story that there had been an attempted bank robbery went the rounds last night about 10 o'clock, but there was no foundation to the story, and it probably had its origin in the fact that a shot followed by a sound of falling glass had been heard at about this time.

John O'Connor, William Kimball, William Payton and Billy Mahon, drunks, were fined each $1 and costs. John Crawford, alias "Beans," was fined $5 and costs on the same old charge. "Beans" was picked up last night in a beastly state of intoxication, with his face looking like a piece of liver as the result of numerous falls.

Andy Fleming was in again for drunkenness. Andy claims that he is a foreman for the Eyre-Shoumaker Construction company, and he was given another chance to be good.

Zosin Campianni, charged with "malicious trespass, was fined $5 and costs. Zosin was charged with throwing a jug through a window in the store of Victor Necia.

Phillip Driscoe had his case continued again until Nov. 15. He is charged with assault and battery with intent to kill. His bond was reduced from $5,000 to $1,000.

an, from Pittsburg to Chicago over the Fort Wayne railroad on Aug. 10, 1910. The indictment charges that he brought the woman to Chicago for immoral purposes.

Evidence was presented to the grand jury, it was said, showing the pugilist posed as the Schreiber woman's husband and that she was known as "Mrs. J. Johnson."

A large number of witnesses testified before the grand jury during the day. Among them were Lucile Cameron, the 19-year-old white girl Johnson is charged with abducting, and her mother, Mrs. F. Cameron-Falconet of Minneapolis, whose effort to save her daughter from the negro's clutches resulted in bringing the pugilist's alleged relations with other white women to the attention of the federal authorities.

STILL FAST ON ROCKS.

Efforts to Dislodge Steamer Royal George Not Yet Successful.

Quebec, Nov. 8.—The steamer Royal George, stranded Wednesday in the St. Lawrence river, was still fast on the rocks today, with 500 steerage passengers aboard. Rough weather held rescue tugs at bay during the forenoon.

The Royal George rests today fifty yards from her position of yesterday, due to an unsupcessful attempt by tugs to get her afloat.

Mrs. Mattie Gaskill, of Monroeville, was acquitted by Justice of the Peace McCormick on a charge of assault and battery filed by a neighbor, Miss Myrtle Moore.

The benefit bridge under the asupices of the Mary Penrose Wayne chapter of D. A. R., at the home of Mrs. Frances H. Robertson, will be held this evening. A large number of ladies and gentlemen are planning to attend and it promises to be one of the large social gatherings of the week.

One of the loveliest of pre-nuptial parties of the season was that given this afternoon by Mrs. Chester Schiefer in honor of her sister, Miss Zoe Long. Eleven of Miss Long's intimate girl friends were invited to Mrs. Schiefer's home. Soon after arrival they were given pink silk bags, each containing ten pennies. With the bags were directions to enter automobiles at the door, drive to down town stores and spend the money as each saw fit in a gift for the coming bride. Later in the afternoon Miss Long had to decide which gift was the most appropriate, so Mrs. Schiefer could award the prize. It was a novel way of giving the bride-elect a "shower" and afforded no end of amusement and entertainment for the entire party. The decorations of the Schiefer home were exceedingly pretty and carried out in pink. Pink chrysanthemums decorated the living room and Killarney roses the dining room table, where they were placed on either side of a big pink frosted cake. The most tempting of refreshments were served, pink ices too pretty to eat and other things so good they fairly melted in the mouth, all examples of the hostess' well known skill in the culinary art. Other coming entertainments in honor of Miss Long will be given by her cousin, Miss Irma Henderson, and by the Misses Mary Menefee and Verne Bowser.

A bridge party of beautiful appointment was that given by Mrs. J. G. Thieme this afternoon, complimenting Mrs. F. E. Cooke, of Fredonia, N. Y., who is visiting Mrs. John A. Thieme. The guests were ladies whom Mrs. Cooke met most frequently during her visit here last April to attend the wedding of her son and Miss Clara Thieme.

Miss Geraldine Bulson is issuing invitations to a party she will give at her home on Friday evening, Nov. 15.

A beautiful evening reception of yesterday was given by Miss Dreier and Miss Alma Dreier at their home in West Berry street, in honor of Miss Natalie Driggs, of Washington, D. C., who is visiting Miss Alma Dreier. The rooms were lovely with a decoration of oak foliage and yellow and white chrysanthemums. Small variety of the mums were used on the dining room table, which was handsomely laid in glass and silver, with softly shaded lights in the chandelier and on the table. Mrs. W. H. Dreier assisted her daughters in receiving, but there was no formality about the reception at all. Mrs. Lawrence Eberbach, Mrs. Miles F. Porter, jr., Mrs. Harry Hattersley, Miss Evelyn Fisher, Miss Hadji Dawson, Miss Esther Fleming and Miss Alice Knight assisted in the parlors and in serving refreshments. The guests were the young married people and those of the unmarried social set.

The D. W. T. club will meet with Miss Grace Bennett next Tuesday evening.

Mr. and Mrs. D. H. Taft, of Columbus, Ohio, are visiting Mr. and Mrs. Frank L. Taft.

Miss Ruth Evans has come home from Toledo, Ohio, to attend the wedding of her sister, Miss Elizabeth Evans.

Mrs. Fred H. Joss, of Indianapolis, spent today with Dr. and Mrs. Eric Crull.

Sam L. Morris, jr., has arrived home from a three weeks' visit in Denver, Col., with relatives.

Mrs. Fred S. Hunting and little son and Stanley Hunting have gone to Chicago for a ten days' visit.

Mr. and Mrs. Robert Millard, of Washington boulevard west, are entertaining Mrs. A. L. Millard, of Adrian, Mich.

Miss Henrietta May, of Cincinnati, who had been visiting with Mrs. Louis Scheffman, of East Wayne street for several days, has returned home.

Miss Neva Robinson, of Detroit, Mich., who had been visiting her sister, Mrs. Abe Frank, of Lakeside, returned home today.

Mrs. Mary Deakin and Miss Margery Deakin, who had been visiting Mr. and Mrs. Frank I. Brown for several weeks, went to Indianapolis today to visit friends there.

Miss Sinclair Hattersley gave an informal thimble party on Wednesday afternoon in honor of Miss Elizabeth Evans. Miss Geraldine Sembower, of Garrett, was the out of town guest.

Mrs. H. C. Proehl, of 2046 Broadway, left yesterday for Toledo, Ohio, which is her girlhood home, to attend a grand lodge reception and to visit relatives. From Toledo Mrs. Proehl will go to Detroit for a short visit with friends.

Mr. and Mrs. I. M. VanSlyke, of Oakland, Cal., are the guests of Mr. and Mrs. Frank Taft for a few days. They have been making a visit at eastern points and will start soon for their home.

Judge and Mrs. John W. Eggeman and children are going to Lafayette tomorrow for a visit with relatives. Judge Eggeman will be gone a week and Mrs. Eggeman will remain some time longer with her sisters.

Kleinhenz—Baltzell.

Miss DeEtta Baltzell and Mr. Edward Kleinhenz were married on Thursday evening at 7:30 o'clock at the parsonage of St. Mary's Catholic church, by Msgr. J. H. Oechtering. The bride is a daughter of Mr. and Mrs. Dayton Baltzell, of Hugh street, and the groom's parents, Mr. and Mrs. John Kleinhenz, live in Decatur. The bride wore a pretty gown of cream silk voile made over a coral pink satin messaline and trimmed with lace. The bride wore a white beaver hat trimmed with pink ostrich plumes and tiny pink rosebuds and held a bouquet of bride roses. Mr. and Mrs. Earl Henschen were the attendants. After the marriage service the bridal party went to the Wayne hotel for the wedding supper. The bride and groom left later for a trip to Indianapolis, but will make their home in Decatur, where the bridegroom is employed as bookkeeper for Schafer & sons' hardware store. The bridegroom is a young man of excellent character and has many friends. The bride is musical and accomplished in many ways. For traveling the bride wore a tailored suit of black and white kersey cloth with a tailored hat to match.

LOCAL SUFFRAGE SOCIETY.

There will be a meeting on Saturday afternoon of the local woman's suffrage society at the public library at 2:30 o'clock. The meeting is called by the secretary, Miss Katherine Hamilton, in response to a request from three members.

A BEAUTIFUL EVENING GOWN—MOST EXQUISITE CONCEPTION IN DRESS.

After all, the most exquisite creation of the modiste is the perfectly fashioned evening dress with all its soft, clinging folds and graceful lines.

In it lies the costume artiste's real opportunity to exercise his delicate sense of color, line, novel conception in application of trimming and novelty of design.

A capital illustration presents itself in the accompanying picture which is a real delight to the artistic eye that catches line and design and draping imperceptibly.

And yet the whole costume is simple and might be built out of medium-priced materials.

While the panier drapery over the hip gives coquetry to this delicate gown, the arrangement of the sash of black net lends dignity and length of line.

It is draped over one shoulder and arm and falls straight down the back, being caught against the skirt under a bead embroidered ornament.

The dress itself is made of white satin charmeuse—soft, fine material suitable for an evening gown—might be substituted. It is trimmed with the bead embroidered motifs and bead fringe.

The black velvet hat with its smart trimming adds contrast.

Mrs. Marshment's Original Recipes.

As Demonstrated at The Sentinel Free Cooking School.

BAKED FISH WITH DRESSING—Clean a two or three-pound fish, sprinkle well with salt and flour before baking; stuff with a dressing made of one cup of bread crumbs, pepper and salt to taste; a little parsley and onion minced finely; bind with one egg, sew up the fish and bake thirty minutes.

* * *

MACARONI AND CHEESE—Break the macaroni into small pieces; boil in rapidly boiling salted water twenty minutes; blanch; put a layer of macaroni into a dish or bag mould and sprinkle with salt and red pepper, small pieces of butter, then a generous layer of cheese grated; alternate the layers having cheese on top; pour enough milk to thoroughly moisten; bake sixty minutes.

* * *

SPICED BEETS.—Turn the liquid off of one can of beets; add one teaspoon of mixed herbs; place in a well-greased bag for twenty minutes; when ready to serve, pour over them a sauce made of two tablespoons of butter, two tablespoons of vinegar, or lemon juice, and one-half teaspoon salt.

AT THE MAJESTIC.

"The Great Divide" at the Majestic.

The first presentation at popular prices of the famed Margaret Anglin and Henry Miller drama, "The Great Divide" in this city took place at the Majestic theater last night, with Albert Phillips and Leila Shaw in the roles made famous by the above named former co-stars.

The story of "The Great Divide" tells a thrilling tale of savage love, primitive emotions, desolate companions, and the awakening of a woman's heart for a regenerated brute whom she marries for the sake of her protection. Its depictation carries its audience from the Arizona desert and the turmoil of life "On the Top of the Earth" to the quiet of an old New England home, and in its unfolding brings before them a story of absorbing, vital and human scenes, intensely natural in its true American man and womanhood.

The original massive scenic production that was used by Margaret Anglin and Henry Miller during the run at Daly's theater, New York, is part of the equipment used by the Philips—Shaw company and the cast which supports the two stars gives adequate aid in the portrayal of the several roles necessary to give life and motif to this interesting theme of William Vaughn Moody's epical story. The play will be seen at the Majestic this evening and Saturday matinee and night.

"The Confession."

"The Confession" will be the attraction at the Majestic Monday and Tuesday.

Mr. Reid has used in the theme of his play a most powerful and vital subject, and yet there is not a line that would offend the most sensitive. Rather, he has compiled a story of intense dramatic interest with a strong uplift, purpose and a great lesson.

His play will be interpreted by a company of distinguished players.

"THE GREAT DIVIDE."

A Good Company Presents Fine Play at Popular Prices at Majestic.

Headed by Albert Phillips, a young and talented actor, and Miss Leila Shaw, who has both charm and beauty, in addition to much natural ability to act, "The Great Divide" was presented at the Majestic theater last night to a large and delighted audience. The play is one that appeals in every way. It is easily understood and its interest grows continually. Miss Shaw, as Ruth Jordan, is very satisfactory and pleasing. She has a splendid conception of the heroine and enacts the part in a wholesome manner free of mannerisms. She made an excellent impression on the audience and will be a drawing card whenever she comes to Fort Wayne again. Fortunately the play will be here tonight and two performances tomorrow, so people will have an opportunity to see both the play and Miss Shaw and Mr. Phillips. Mr. Phillips is well fitted to the role of Steve Ghent. He is both the brute and the man and works the character out consistently and ably.

The play is being shown at popular prices and is one of the good things of the season. The presentation of the play throughout is very good.

SURE TO PASS 100,000 MARK

But Official Pluralities in Indiana Are Not Yet Available.

VOTE ON CONGRESS

Indianapolis, Ind., Nov. 8.—Late returns from counties in the northern part of the state only added to the leads of the democratic candidates on the national and state ticket. Although no accurate totals are available, it is generally conceded that the pluralities for Wilson and Ralston will run well above the 100,000 mark.

Official returns began arriving at the office of the secretary of state today, but it will not be until Saturday, or possibly the first of next week before the official results can be announced.

Albert J. Beveridge, progressive candidate for governor, benefited by some of the belated returns from Lake and other northern Indiana counties.

The defeat of Edgar Crumpacker, the only republican representative in congress, which had not been admitted by his friends, was shown to be certain last night, when returns showed that John Peterson, his democratic opponent, had been elected by a safe plurality of more than 1,000 votes.

Eugene V. Debs, socialist candidate for president, showed considerable strength in Marion county, polling more than 5,000 votes. In Vanderburgh county he also showed gains.

Leaders of the progressive party have announced that they will demand all the honors that generally are bestowed upon the party showing the second largest vote.

The Congressional Vote.

Indiana for the first time in many years will be represented in congress by a full quota of democrats. The following table shows the vote in the several districts:

First district—Charles F. Lieb, democrat, 20,031; H. C. Heldt, progressive, 6,119; David H. Ortmyer, republican, 12,953. Lieb's plurality, 7,078.

Second district—William A. Cullop, democrat, 15,494; J. N. Dyer, progressive, 3,805; Oscar E. Bland, republican, 11,637. Cullop's plurality, 3,857.

Third district—William E. Cox, democrat, 23,029; Samuel G. Wilkinson, progressive, 10,506; William D. Barnes, republican, 9,494. Cox's plurality, 2,523.

Fourth district—Lincoln Dixon, democrat, 23,349; Charles Zoller, progressive, 7,493; Rollin A. Turner, republican, 11,984. Dixon's plurality, 11,365.

Fifth district—Ralph W. Moss, democrat, 20,415; Joseph W. Arms, progressive, 8,221; Felix Blankenbaker, republican, 11,960. Moss' plurality, 8,455.

Sixth district—Finley H. Gray, democrat, 20,122; Gierluf Jensen, progressive, 11,309; William L. Riva, republican, 11,263. Gray's plurality, 8,723.

Seventh district—Korbly, democrat, 28,901; Shipp, republican, 13,320; Stanley, progressive, 1,387; Zartman, progressive, 18,402; Hayes, socialist, 5,501. Korbly's plurality, 10,499.

Eighth district—John A. M. Adair, democrat, 23,401; Edward C. Toner, progressive, 13,224; Isiah P. Wattes, republican, 8,288. Adair's plurality, 10,267.

Ninth district—Martin A. Morrison, democrat, 23,328; John F. Neal, progressive, 9,240; William Robinson, republican, 15,789. Morrison's plurality 7,539.

Tenth district—John B. Peterson, democrat, 18,763; John W. Bowers, progressive, 9,955; Edgar D. Crumpacker, republican, 17,294. Peterson's plurality, 1,469.

Eleventh district—George W. Rauch, democrat, 21,935; Edgar M. Baldwin, progressive, 10,801; Dr. J. W. G. Stewart, republican, 12,216. Rauch's plurality, 9,719.

Twelfth district—Cyrus Cline, democrat, 19,610; Louis N. Litman, progressive, 9,005; Charles R. Lane, republican, 10,053. Cline's plurality, 9,567.

Thirteenth district—Henry A. Barnhart, democrat, 19,633; Dr. R. C. Stephens, progressive, 11,850; Charles A. Carlisle, republican, 10,540. Barnhart's plurality, 7,783.

TO KILL ROACHES.

Mix dry, powdered borax with its own bulk of white sugar, and set in shallow vessels all about where the crawling things deport themselves. Renew the mixture every few days, taking care to sweep up and burn all the dead insects.

Paint visible pipes and the spaces where they enter the wall, periodically with turpentine. Let the turpentine run down and around the pipes, especially hot water pipes. But be careful to do it when the water is cool. Now and again pour a spoonful of pure turpentine down sinks and traps.

Cut Irish potatoes in half, dip the cut sides in the borax and sugar and lay them about under sinks, tubs and closets. Do this toward evening. In the morning gather the potatoes, which should lie, cut side down, very quickly, and drop them into a bucket of boiling water. If insects are plenty, there will probably be from one to a dozen clinging to each piece.

ROYAL BAKING POWDER

Adds Healthful Qualities to the Food

Prof. Prescott, of the University of Michigan, explains why Royal Baking Powder adds healthful qualities to the food.

Testifying before the Pure Food Committee of Congress, the Professor stated that fruit acids were excellent articles of food and that of these cream of tartar, the acid of grapes, held rank with the highest both in itself and its effect in the process of leavening and baking. He regarded the results from cream of tartar baking powder as favorable to health. Scientists and hygienists are in accord with this opinion.

Royal is the only Baking Powder made from Royal Grape Cream of Tartar.

BLOND ESKIMO FIND IS REAL

Dr. Anderson Confirms Earlier Claim Made by Stefansson.

RACE DEEP MYSTERY

San Francisco, Nov. 8.—Corroborating the story of the discovery of the blond Eskimo tribes recently announced by Vilhjalmer Steffannson of New York, Dr. Rudolph Martin Anderson, of Forest City, Ia., his partner in Arctic explorations, arrived here today on the whaler Belvedere after four and a half years in the far north. He was accompanied by Prof. E. De Koven Leffingwell, of Pasadena, Cal., who has spent three and a half years making observations in the vicinity of the Flaxman Islands and surveying and mapping about 150 miles of the coast line.

"It was over on the Cape Boxley territory, on the mainladn, and on Prince Albert Sound, across and to the south of the Dolphin and Union straits that Steffannson first got in touch with the blond aborigines," said Dr. Anderson.

Told of Queer Tribe He Found.

"In the spring of 1910 we lost most of our dogs while at Cape Barry, Langton Bay and Franklin Bay, where we had wintered. Steffannson and I parted company, he leaving me with two Eskimos for the east, while I pushed on to the Mackenzie Delta for supplies. We met again at Langton Bay in the autumn of 1910 and he told me of the queer tribe he had discovered.

"In December we started out and were thirty-one days crossing 300 miles of the worst strip of land we ever encountered before we found these strange people.

"First we came on a deserted snow village and finally an inhabited village with a population of forty.

"Many of the men had light mustaches and beards and light hair covered their heads. The eyebrows of these men and their eyes were light. Some of the women—not all—had fair skins and rosy cheeks; but their hair was dark, oily and tangled.

"There were none of the flat-nosed Eskimos of the true Mongolian type among this people. Their features bore the characteristics of the Circasian race. They do not know where they came from and no one else knows.

No Records, History or Legends.

"They have no records, no history, no legends and their language, a peculiar tribal dialect, was extremely hard to understand. As to their origin there can be only a guess. They may be survivors of the expedition of Sir John Franklin, lost to the east of their present locality in 1840 or thereabouts, or they may be descendants of the inhabitants of an early Icelandic colony.

"Among these people there is no hope, no thought worth registering, no ideals, no particular purpose in life. For six months of the year they simply exist, living in snow houses and eating seal meat. In the summer they move to the mainland and subsist on caribou. They have no religion and no marriage ceremony, although there is fidelity as a tribal characteristic. Through other Eskimos they do some trading, but precious little.

Brings Back Many Specimens.

Steffannson had seen about 250 more of these people in his summer trip. He found conditions about the same as I have observed. The people we discovered are extremely primitive, having no modern implements of any kind and no modern weapons.

"They hunt with a crude bow and arrow and spear fish through holes in the ice. They cook their food. In kindling a fire they strike two crystallized stones together."

Dr. Anderson brings back hundreds of specimens of mammals, birds, fishes and minerals that will be divided between the dominion geological survey at Ottawa, Canada, and the American Museum of Natural History in New York. He has thirty-five specimens of caribou.

PAYS NO PERSONAL TAXES.

Carnegie Owes Eight Millions in City of New York.

New York, Nov. 7.—Andrew Carnegie will pay no personal property tax to the city of New York this year. The iron master's personal property was assessed at $10,000,000, but he appeared today before the president of the tax department and made affidavit that this was erroneous. Mr. Carnegie swore that the value of his effects in the city did not exceed $3,500,000, while his debts aggregated $8,400,000. Accordingly the assessment against him was cancelled.

THE MAN WHO BEAT

(Continued from Page 1.)

of winning, too.

When they picked O'Hair to tackle old Joe Cannon of Danville, they picked the one man to buck that rich sure-thing machine of his. O'Hair faced a nominal republican majority of 10,000; the patronage of federal officeholders and the (alleged) solid vote of 2,000 inmates of the soldiers' home at Danville. In his favor was his wide acquaintance, and his reputation as a fearless fighter.

O'Hair's law practice is the largest in Edgar county—and it isn't corporation law work, either. He is a champion of the poor and the legal adviser of more individuals than any other lawyer in the county.

Only once did O'Hair take an office. He became school director, because efficiency in the public schools is a hobby of his.

This fall O'Hair threw himself into the fight with all the energy and singleness of purpose that has marked his career. He spoke in every school in the district.

Noted for his sarcasm, O'Hair stuck barbed shafts into the hide of Cannonism, day and night.

Every man felt that he was voting for his neighbor when he marked a ballot for O'Hair. The cyclonic campaign broke the Cannon grip on this district and relegated to private splendor the veteran of Danville.

O'Hair is young looking at 42. His hair is slighty streaked with gray. His eyes flash steel gray when he is aroused. He never hesitates to voice his conviction in emphatic language.

Scandal has never touched his public or private life. He is a home-lover and his married life has been ideally, romantically happy. One 5-year-old daughter is the only person who has the temerity to bulldoze Frank O'Hair.

GIRL'S GHOST WARNS DEATH.

Phantom Said to Have Predicted Fatal Accident to Ohio Man.

Cleveland, Nov. 8.—Twice the spirit of Margaret Coughanour, who died six years ago, gave warning that her father, Albert L. Coughanour, faced death. Recently the wraith of the girl brought word to the mother that Coughanour was dead. An hour later came news by telegraph that he had been killed with three others in a wreck at Conway, Pa. The story of the spirit of the girl is told by Mrs. Coughanour.

Several weeks ago, she said, while she and her husband sat together in their home the voice of Margaret sounded in their ears. "I see a railroad wreck," said the voice. "I see papa in it; I will protect him."

One night as Coughanour and his wife were asleep came the voice again, this time to Mrs. Coughanour. It brought her wide awake, startled. In the morning the girl herself appeared in a misty robe bearing a rose in each hand, and said: "It is all over."

An Everyday View of the Next Sunday School Lesson

Nov. 10—World's Temperance Sunday. —Lesson, Hosea 7.

Golden Text—Woe unto them that rise up early in the morning, that they may follow strong drink; that tarry late into the night, till wine inflame them!—Isa. 5:11.

Lesson Analysis.

Introduction: Assyria had been making frequent forays and invasions into the territory of Israel and against the power of the Northern kingdom. Instead of being recalled by successive defeats and humiliations to a sense of dependence upon God, Israel turned to the sources of her distress and bought the freedom of servitude from her conquerors. In fancied security the whole kingdom—king, court, priests, leaders and people—gave themselves up to debauchery, idolatry, licentiousness and every hateful evil. Hosea, a preacher of God's righteousness, quickened to spiritual insight by his own harrowing experiences, caught a clear vision of the wreckage which Israel was making of itself. His sermons are earnest entreaties and pleas for Israel to repent of her manifold sins.

Limits of Spiritual Power. V. 1. There is no possible manifestation of spiritual energy in human life and thought apart from the human body. The human being is an indissoluble union of soul and body. These are inseparable from the time the human being begins to be until it ceases to be a human being. Spiritual power, therefore, is limited by the physical organ of life and the degree of control with which the physical is made the ready and responsive servant of the spiritual. Political states are but aggregate groups of individuals. But states have existence only here in time. Therefore the judgment of a state must be visited upon it here in time according as the people respond to the lures which drag it down or build it up.

God and Man. V. 2. The whole of the Bible message to the human race may be summed up in these two words, **God and Man.** In our christian faith we have learned that the attitude of the soul which God demands from all his creatures is that of righteousness, the righteousness which is of God by faith in Jesus Christ. In the Jewish faith this attitude of the soul which should govern all human relations under the dominant conviction of a holy God was covered by the Hebrew word "mishpat." While the significance of that word is largely that of "justice," our word justice does not begin to include all the ideas of integrity, rectitude, consideration for others, generosity and magnanimity which are grouped in that Hebrew term. For many centuries following the period of the conquest and settlement under the direction of Joshua the idea, "mishpat," seems to be almost wholly lost from view. When the line of great prophets arose, spurred to their mission by the tragedy of the times, they urged relentlessly and ceaselessly the idea that Jehovah God demanded only from his people that they should do "mishpat," love mercy and walk humbly before him. The sense of false security in which Israel gave itself to almost unbridled licentiousness and drunken cries was met by the tender appeals of Hosea and the lightning-like appeals to the conscience of Amos.

The Greediness of Corruption. Vt. 3-7. It is an inexorable principle that habit, fixing itself in human life, impels and compels the victim to go down fast and even faster, "working all uncleanness with greediness." Kings become glad with wickedness, princes with lies, adulterers feed the fires of their passions by artificial heat, drunkards make themselves sick with wine—the whole brood of evil passions surge and sway till there is nothing left but the desolation of destruction. "There is none among them that calleth unto me."

Ephraim. V. 11. Go back down into Egypt and see Joseph's half-breed son, born of the heathen daughter of a heathen high priest. Go back to the prophetic patriarchial blessing, when Jacob refused to heed Joseph's directions and set the youngest son above the eldest (Gen. 48:8-20). Read the final patriarchal blessing upon Joseph whose sons were to represent him in the growing family of nations (Gen. 49:22-26). Now, some seven centuries later, Ephraim has come to stand as the representative of might and power of the ten tribes. Ephraim, restive, turbulent, powerful, profligate Ephraim, dominating Samaria, flooding the capital with moral idiocy and spiritual blight. Ephraim's course is almost run—the holy God is drawing about him the net in which he will be enmeshed and disappear into historical oblivion.

Unconscious Decay. V. 9. "And he knoweth it not." The young man sets his feet in the pathway of sin; the world all at once is changed; always it is the others who have changed it, not he himself. He treads the pathway, his eyes are bleared, his lip droops, his voice quavers, his feet shamble and his knees do not hold him erect, firm and strong. Why has everyone else so changed? He has not changed—Oh, no! The whole world is in conspiracy against him! He never did get a square deal! Society is cruel and hard—it receives him not! Alas, he is a walking mass of corruption, he is honey-combed through and through with deceit and foul vileness.

Unescapable Doom. Vt. 11-13. "I will spread my net upon them; I will bring them down as the birds of heaven, I will chastise them; woe unto them! for they have wandered from me; destruction unto them!" Why is it Israel would not see, Ephraim would not learn, Samaria would not know, nor do men and cities and nations today learn after 3,000 years of experience in human history with God who is holy, that every dishonest dollar carries damnation with it; that every lie reverses the wheels of the universe and sets the whole machinery in motion to bring doom and prevent success! Not otherwise can a hold God in a moral universe train men and women to be fit for his friendship.

Derading God. Vt. 14-16. Of course, men who live in rebellion against God will not cry to him with their hearts. Though he has sent his son to teach men and strengthen their arms yet do they devise mischief against every work of the good and holy God. We still vote to keep up saloons to pay taxes to damn the bodies of boys and girls and bring them down to destruction. Would that God might raise up a national prophet to smite the sin of our greed and indifference and moral imbecility and make the whole flag white.

Harmless Way to Darken the Hair

A Little Sage and Sulphur Makes Gray Hair Vanish—A Remedy for All Hair Troubles.

Who does not now the value of Sage and Sulphur for keeping the hair dark, soft and glossy and in good condition? As a matter of fact, Sulphur is a natural element of hair, and a deficiency of it in the hair is held by many scalp specialists to be connected with loss of color and vitality of the hair. Unquestionably, there is no better remedy for hair and scalp troubles, especially premature grayness, than Sage and Sulphur, if properly prepared.

The Wyeth Chemical company of New York put out an ideal preparation of this kind, called Wyeth's Sage and Sulphur Hair Remedy, in which Sage and Sulphur are combined with other valuable remedies for keeping the hair and scalp in clean, healthy condition.

If your hair is loosing its color or constantly coming out, or if you are troubled with dandruff or dry, itchy scalp, get a fifty cents bottle of Wyeth's Sage and Sulphur from your druggist, use it according to the simple directions, and see what a difference a few days' treatment will make in the appearance of your hair.

All druggists sell it, under guarantee that the money will be refunded if the remedy is not exactly as represented.

BOARD PASSES ON STREET OPENING

Over Objections of Railroad Favors Opening of Harrison.

OTHER MATTERS UP

In spite of the injunction suit brought by the Lake Shore railroad, the board of public works, at its meeting Thursday night, confirmed the resolution for the opening of Harrison street across the St. Mary's river to First street, and from Sixth street to Putman. The resolution was confirmed over the objections made in person by Judge Walter Olds, attorney for the railroad company.

While the railroad company has filed action in the superior court, it neglected to ask for a temporary restraining order. The case is set for a hearing November 10, when the injunction suit will either be made permanent or dismissed.

Attorney P. A. Randall spoke in behalf of the property owners, who are asking for the Harrison street extension. About fifteen residents of Bloomingdale attended the meeting.

Other Business.

Residents of Maumee avenue filed a petition asking that the street be resurfaced between Anthony boulevard and Harmer street. The pavement was laid nine years ago.

S. B. Bechtol and A. Z. Polhamus offered to pay $50 each for crushed stone to be placed on the continuation of South Broadway from the end of the pavement to Rudisill avenue. Their proposition was accepted.

Assessment rolls were confirmed for two sewers, one in Lakeside and the other on Colerick street, from Hanna street to the alley east; paving Lake avenue, from Crescent to Walton; cement sidewalks on Brackenridge street; cement sidewalks on Oak street; cement sidewalks on Clay street; paving the alley between Washington and Wayne, Clay to Monroe. Primary assessment rolls on the paving of the alley between Calhoun and Harrison,

NEWS OF FORT WAYNE'S NEIGHBORS

MARRIAGE TO END BIG DAMAGE SUIT

Wealthy Young Farmer Decides to Wed Girl Who Had Sued Him for Breach of Promise.

Bluffton, Ind., Nov. 8.—A marriage license was issued late yesterday afternoon by County Clerk Adalgo Wandel, which is a sequel to a $5,000 breach of promise suit which was filed in the Adams circuit court at Decatur ten days ago. The bride is Miss Auzelah Breiner, aged 22, a daughter of James Breiner and wife, living near Tocsin, and the groom is John E. Zimmerman, 23, a son of William Zimmerman. He is a wealthy young farmer of Adams county, and they will reside on a farm in that county.

The issuing of the marriage license recalls the story recited by the bride in a complaint which she filed at Decatur ten days ago, in which she alleged that Zimmerman had promised some time ago to marry her on October 31st, but had later informed her that he did not intend to carry out the marriage pact. She alleged that he did not thus inform her that the engagement was broken until she had completed all wedding arrangements, even to the purchasing of her wedding dress, ordering the wedding dinner, preparing for the honeymoon trip, etc. For the laceration of her feelings and the financial expense to which she had been put she estimated that she had been injured to the extent of $5,000, which amount she asked as damages in the breach of promise suit.

The marriage license means that Mr. Zimmerman intends to carry out his promise to marry Miss Breiner, and will mean the dismissal of the breach of promise suit.

HEAD SEVERED FROM BOY'S BODY

Run Over by Nickel Plate Passenger Train at Sidney, Charles Haines Met Instant Death.

SouthWhitley, Ind., Nov. 8.—Thowing himself upon the tracks as the westbound passenger train on the Nickel Plate railroad was passing Sidney, several miles west of here in Kosciusko county, Charles Haines, aged 15 years, the son of Mr. and Mrs. John Haines, of Sidney, was instantly killed, his head being severed from the body by the passing of the train over it, at 1:45 o'clock yesterday afternoon.

While the train was approaching from the east the boy, at a point about thirty feet east of the station, walked on to the tracks and, as it appeared to those who witnessed the tragedy, laid down, placing his neck across the rail. It was impossible for the engineer to stop the heavy passenger train or for bystanders to rescue the lad.

The boy was subject to epileptic attacks. It may be that one of these came on him at the time and he fell to the ground as he was crossing the track. It is not believed that it was a case of suicide. Immediately after the accident those at and near to the station rushed to his assistance, but it was too late. Only a mangled, ghastly corpse met their eyes.

The remains were taken to the undertaking establishment of Arthur Paulus and prepared for burial.

The father is in the employ of the firm of Ridle & Circle, hardware dealers of Sidney.

"DRANK TO WILSON'S HEALTH."

Former Neighbor of President-Elect Discharged for Celebration.

Chicago, Nov. 8.—"Your honor, I admit I was drunk, but the fact that my old neighbor was elected to the presidency of the United States was too much for me to stand, and I just imbibed too freely drinking to Woodrow Wilson's health."

This was the answer James Stevenson gave to Municipal Judge C. E. Williams in the Sheffield avenue court when he was arraigned on a disorderly conduct charge.

Stevenson said he formerly lived in Princeton, N. J., and was on his way back there after a summer spent in the Dakota harvest fields. He was discharged.

For Corns, Bunions You Need EZO

Just Rub it on Sore, Weary Feet, and Misery Vanishes—Ask for EZO for the Feet.

Every reader of the Sentinel knows that EZO, the refined ointment, is the real remedy for sore, aching, painful, burning, tender feet; but how many know that it is also guaranteed to extract the burning agony from those terrible Corns, Bunions or Callouses or money back at Meyer Bros. Co., or druggists everywhere.

Give EZO a trial; a 25 cent jar will prove to you that it is the best remedy to banish foot misery, and toughen your feet so that you can run, jump or dance and be joyful.

Just rub it on—no time wasted fussing around and remember it's splendid for rough skin, chapped hands and face and for frostbites and chilblains.

Newton Petticoats Fit Perfectly

No mater how beautiful a Petticoat is, how dainty or how fancy, it is of no real value unless it fits perfectly, in every detail. The Petticoat should so fit around the waist and over the hips, that the skirt asumes naturally the correct lines of the figure. A bulge in the petticoat means a bulge in the skirt, and a wrinkle in the skirt nearly always results from a wrinkle in the Petticoat. The patented extension waist band at the back, and side opening at the front closed with three invisible clasps, insure a perfectly smooth and correct hanging garment.

NEWTON ADJUSTABLE TOP PETTICOATS.

Made of superior quality silk messaline, in black, plain colors, light, medium and dark shades, and changeable effects in every style; special values at 3.50

THE COURTS.

The Seavey Hardware company has brought suit against John Hageman for breach of contract, demanding damages in the sum of $500. The complaint alleges that the contractor agreed to purchase glass and other hardware to be used in the new addition to St. Joseph's hospital and that he failed to do so. F. B. Shoaff is attorney for the plaintiff.

The September term of court ends Saturday and at that time the work of Judge Edward O'Rourke, for the past thirty-six years judge of the tribunal also ceases. He will be succeeded by Judge-elect John W. Eggeman, whose term begins November 15.

County Clerk William E. Gerding went to Indianapolis today to deliver the election returns of Allen county to the secretary of state.

Clarence Crosby was granted a divorce from Marietta Crosby in the circuit court this morning. McAdams and Hartzell represented the plaintiff.

Mary Tilbury has filed complaint for divorce in the superior court from Charles Tilbury. She alleges failure to provide, cruel and inhuman treatment, and seeks a restraining order to keep the defendant from her home. Phil Colerick represents the plaintiff.

Articles of Incorporation.

Articles of incorporation have been filed with County Recorder Kelly for the Becker Grocery and Dry Goods company. Capital stock is listed at $15,000, and the incorporators are August E. C. Becker, Minnie Becker and Emma Gerke.

New Road Established.

The board of county commissioners at its morning session established the Dodane road in Wayne township.

The commissioners this afternoon inspected the new bridge over the Junk ditch in the western part of the city back of the Eckart Packing plant. The structure is practically completed.

Case Goes to Jury.

The case of Cass vs. Alden, which occupied the attention of the superior court for the last three weeks, went to the jury at noon today. The greater part of the morning was spent in final arguments and court instructions. At a late hour this afternoon no verdict had been reported.

Armanda Garman was granted a divorce from B. F. Garman in the superior court this morning.

New Jersey Woman Who Spent Life Aiding Missions Dies.

Hackettstown, N. J., Nov. 8.—Miss Catherine McCracken, who has observed her eighty-ninth birthday, has spent over three-quarters of a century as a "shutin." She was the victim of an injury to her spine when eleven years old and never regained her power to walk.

Miss McCracken has been busy most of her life knitting and sewing things for missionary workers in the foreign fields.

LAFAYETTE MAN DYING.

W. A. Sprott Stricken by Paralysis at Urbana, Ill.

Champaign, Ill., Nov. 8.—W. A. Sprott, of Lafayette, Ind., for many years division freight and passenger agent for the Wabash in this vicinity, was found in a dying condition at the Columbian hotel at Urbana following a stroke of paralysis. He has been in the service of the Wabash for more than thirty years, and is sixty years old. His wife at Lafayette has been notified.

SHOP AND RAILROAD NEWS

CIVIL ENGINEERS ARE PROMOTED

A. C. Watson, Sent to Cleveland, is Succeeded by H. Hall.

EACH LONG WITH THE PENNSYLVANIA

F. F. Boltz Resigns as Agent at Bulffton for L. E. & W.

A bulletin issued by Supt. W. M. Wardrop and bearing the approval of General Supt. A. M. Schoyer, of the Pennsylvania, issued last night reads as follows:

"Effective November 1, 1912, Mr. Harvey Hall is appointed assistant division engineer, vice Mr. A. C. Watson, transferred."

While this change was decided upon some time ago, it was known only to the superintendent and the men in the maintenance of way department and the news will be a surprise to the many other friends of the men affected by the change.

A. C. Watson goes to Cleveland as assistant to Division Engineer H. Newcomet, his title being the same as it was on the Western division.

Viewed from an engineering standpoint, however, the new position is of much more importance than is the position he is vacating. It presents greater engineering problems and probably a greater salary and better chances for promotion. Mr. Watson has been connected with the engineering department of a railroad ever since he completed his collegiate course in the summer of 1899. His first work was in the capacity of a chainman on the Erie and Ashtabula division of the Pennsylvania. He passed through a number of promotions on that division until he reached the office of assistant of an engineering corps in April, 1903. A month later he resigned and went to the Illinois Central, where he served respectively as transit man, assistant engineer of the New Orleans and the St. Louis divisions respectively and chief clerk to the road master. In April, 1905, he resigned and took employment with the Vandalia, first with headquarters in St. Louis and later in Indianapolis. January 1, 1910, he went to the Richmond division of the Pennsylvania and came to the Western division as assistant division engineer in March, 1911.

Harvey Hall never had another employer than the Pennsylvania. His service in the engineering department commenced nine years ago, when he took a position in the office of Chief Engineer Robert Trimble at Pittsburg. He came to Fort Wayne in November, 1908, as assistant in the engineering corps under A. S. Bland, now in Chicago, and held that position until the promotion that has fallen to his lot this week. Speaking about the changes this morning, Supt. W. M. Wardrop said that when it became necessary to appoint a new assistant division engineer, he was glad that he was able to fill the office with an experienced man. "Mr. Hall knows the Western division perfectly and the work over which he will have jurisdiction will move on smoothly and uninterruptedly."

These changes are to be followed by others, but the appointments, if they have been decided upon, have not been announced.

Mr. Watson is preparing to move to Cleveland at once and Mr. Hall assumed the duties of his new office this morning, when he made his first trip to Chicago in his official capacity.

HAD ANNUAL ELECTION.

General Electric Club Names Its Officers for Ensuing Year.

At a meeting of the General Electric club last night the following officers were elected to serve the ensuing year: W. J. Anspach, president; B. S. Haswell, vice president; W. B. Rusher, secretary; R. F. Sparkman, treasurer; W. J. Koch, librarian; executive committee, J. B. Brames, George L. St. John, Joe Noll; membership committee, Frank Morrow, O. Keesbury, B. S. Haswell; entertainment committee, M. Cashman; athletic committee, J. B. Brames; educational committee, George L. St. John, William McDonald, Joe Noll. Superintendents J. C. Hipple, A. B. Stetson and G. A. Frey were elected honorary members of the latter committee.

It was decided to change the meeting night of the club from the first and third Thursdays to the second and fourth Tuesdays of each month and some changes in the constitution and by-laws were considered necessary and action will be taken later. It was also decided to give a series of entertainments.

WILL DISTRIBUTE CASH.

Wabash Discards Check System of Paying Its Employes.

Bulletins received at the different departments of the Wabash this morning convey the information that the old method of paying the employes with checks has been abolished and that instead cash will be handed directly to the men at the paymaster's counter in the pay car. It will reach Fort Wayne at 5 o'clock Wednesday, November 20. George Francisco has officiated as paymaster on the Wabash for several years and it is presumed he will continue in that capacity under the new rule.

LAKE SHORE FALLS IN LINE.

The Lake Shore has given out the information along its lines that the time of the Twentieth Century limited, Chicago-New York, would have a new schedule when the winter time table becomes effective the latter part of November. After that date, the running time of the limited will be twenty instead of eighteen hours. Similar announcement was made by the Pennsylvania concerning its eighteen-hour-train a week ago. This reduction in the speed is the result of an agreement between the Pennsylvania and the Lake Shore, at the suggestion of the New York Public Service commission, but for some reason the Lake Shore withheld the announcement concerning the Twentieth Century limited.

IS A GANG FOREMAN.

Garland Obenchain, formerly an assembler in the small motor department of the Fort Wayne Electric works, is now a gang foreman of the department. It will be remembered that this department was enlarged six weeks ago, with Paul Shivers as foreman, and the promotion of Mr. Obenchain is one of the results. Mr. Shivers' appointment was mentioned by The Sentinel at the time it was made.

TRANSFERRED FROM COLUMBUS.

Dr. A. Delaplane, a medical examiner for the Pennsylvania Voluntary Relief association, who has been acting as assistant examiner at this point for several months, during the illness of Dr. E. F. Wagner, has been permanently transferred here in that capacity. He is now preparing to move his household effects here and as soon as they arrive Mrs. Delaplane will come up from Columbus to reside here.

TRAINMASTER TITUS ILL.

Trainmaster C. L. Titus, of the Nickel Plate, is a severe sufferer from an attack of sciatic rheumatism. He has been confined to his home for two or three days, but is improving and hopes to be out in a short time.

WILL GIVE ENTERTAINMENT.

The meeting last night of the Fort Wayne Electric Works' Mutual Benefit association was well attended and importan because of the character of the business transacted. Included was a decision to make the next meeting a social and entertaining affair, a feature being moving pictures. President Charley Brenner will name the committee of arrangements in a few days.

RETURNS FROM TENNESSEE.

J. M. Zollers, the well known Pennsylvania shopman, has resumed his duties in the planing mills. He had been visiting his aged mother in Tennessee about two weeks.

STRUCK WITH A SLEDGE.

L. D. Gratts, of the Pennsylvania boiler shop, sustained injuries Wednesday which may develop into a bad abdominal rupture. He was struck with a sledge and pretty badly hurt.

INDUSTRIAL NOTES.

Byron Thomas, a foreman at the Pennsylvania shops, is sick and off duty.

H. W. Telley, F. H. Subkewski and R. Splitlog, Pennsylvania shopmen, are sick and off duty.

Nicholas Pfeifer, a boilermaker's helper, took employment at the Wabash shops this morning.

H. J. Leach has been transferred from laborer in the Pennsylvania machine shop to apprentice in the erecting shop.

The Wabash announces another Toledo excursion on November 17, which it is believed will be the last of the season.

Gang Foreman M. H. Hobrock, of the Pennsylvania erecting shop, is entertaining his mother, Mrs. Sophia Hobrock, of Decatur, Ind.

Traveling Passenger Agent Jenkins, of the Missouri Pacific, is accompanying Mr. Thomas, a new man, over the territory and introducing him to the people he will meet in a business way.

John F. Terry, city policeman on the Pennsylvania and Wabash depot beats, resumed that duty this morning. He had been in Michigan attending the funeral of Andrew Sprung, 74 years old, the brother of Mrs. Terry.

R. S. Augsburger, traveling storekeeper of the Wabash, is here on business connected with the department. John Danes, foreman of Carpenters, and Michael Lumm, road supervisor, were also here on business today.

Ed Moot, district passenger agent of the Great Northern, and P. M. Butzen, who holds similar office with the Chicago and Great Western, were callers at the several passenger stations in the city yesterday. Both reside in Chicago.

Miss Ruth Klingman, daughter of Supt. William Klingman, of the Bass foundry, is now getting around on crutches and it is believed she will recover completely from the severe injuries sustained two months ago. Miss Klingman had the ligaments torn loose from one of her ankles and the foot was otherwise injured.

HENRY O'MERA IS DEAD.

Muncie Man Was Well Known in Fort Wayne.

J. B. Cahill received a telegram this morning announcing the death of his cousin, Henry O'Mera, of Muncie, Ind. Mr. O'Mera was proprietor of the Muncie Iron works, and was well known in Fort Wayne, where he had visited frequently.

See our display of kid gloves in our south window. Prices $1.00 to $2.50.

CAPT. F. F. BOLTZ QUITS RAILROAD

Former Fort Wayne Man Resigns as Passenger Agent at Bluffton to Take Position in Knightstown Home.

CAPT. F. F. BOLTZ.

Capt. F. F. Boltz, a former resident of Fort Wayne and for the past eighteen years the passenger agent at Bluffton for the Lake Erie and Western, tendered his resignation yesterday. Captain Boltz has received the appointment of steward of the Soldiers' and Sailors' Orphans' Home at Knightstown, an institution with which he has been connected in another capacity for several years. He succeeds O. O. Fort at the home, that gentleman being transferred to another department. Although Captain Boltz has not been a resident of Fort Wayne for nearly twenty years, he has kept in close touch with his old acquaintances in the city and is a frequent visitor here. He is prominently connected with the Masons and belongs to the Scottish Rite and Knights Templar. He never fails to attend all the prominent meetings of both in this city. It is believed that Austin Oliver, telegraph operator and assistant ticket agent of the L. E. & W., will succeed Captain Boltz. The latter's resignation becomes effective Dec. 1.

WARRANT FOR RUBE MARQUARD.

Famous New York Pitcher Figures in Sensational Charge.

Atlantic City, N. J., Nov. 8.—On an affidavit sworn to by Joseph Kane, of New York, and two detectives, Police Magistrate Jagmetty, of this city, today issued a warrant for the arrest of "Rube" Marquardt, of the New York National league baseball team. Mr. Kane in his affidavit charged that he and the two detectives found Marquard and Mr. Kane's wife in a hotel here early today.

Mr. Kane further charged that while he was talking with the proprietor of the hotel Marquard and Mrs. Kane left the place through a rear exit with the aid of an employe of the hotel. Mrs. Kane is an actress, her stage name being Blossom Seeley. The pair have been appearing in a vaudeville sketch which exploited Marquard's prowess as a pitcher.

New lavatories are being placed in the third floor of the federal building.

IN THE CHURCHES

THE LIFE OF ABRAHAM.

Series of Sermons to Be Preached by Rev. Edw. Montgomery.

Commencing with the evening service on Sunday, November 17, the pastor, Rev. Edward Montgomery, will give a series of sermons on "The Footsteps of a Pilgrim," at the Third Presbyterian church. They will be messages from the life of Abraham, the great patriarch. Christian pilgrimage will be blended in sermon and song.

The choir is taking special pains with music and an increase in attendance and interest is evident at all the services. While there will be special numbers by the quartet at the morning services, particular attention will be given to the music at the evening services throughout the winter.

Mrs. Wettin Built a Home in the Midst of a Cyclone —A Real Home for a King.

MRS. WETTIN AND HER DAUGHTER MARY RIDING IN LONDON.

(By William Shepherd.)

London, Nov. 8.—She's the woman who built a home in the midst of a cyclone, is Mrs. Mary Wettin. For that reason she's interesting.

By cyclone I mean that tornado of wealth, culture, frivolity, flattery, snobbery, pleasure, ambition, bitterness and joy that whirls around a throne. And by home I don't mean a house, but a home, a cyclone cellar of a home, filled with love and kindness and peace and children.

Mrs. Mary Wettin is the queen of England. She has turned the palaces of the king where at times in the past hatred, fury and all the evil passions have ruled.

It was like this:

Whenever England has an unmarried prince of Wales running around loose, a future King, it seems to be the job of some five hundred or a thousand people to hunt around for a girl who will make a good wife for him. It doesn't make so much difference whether she will love him or not, or whether he will love her. But she must come of royalty, her past must be clean, she must be healthy, for there must be other princes of Wales in the days to come, and royal lines are matters of human stock breeding.

About a third of a century ago, down in Richmond, the eyes of this mob of selectors fell on Mary. Her father and mother, the duke and duchess of Teck, were poor; the family fortunes had almost set. But Mary was sunshine itself and she had health enough for three girls.

And so she was selected to marry the future prince of Wales, whose name was Albert and who was three years older than she. They called his "Collars and Cuffs." While she was waiting to be old enough for marriage, he was ruining his life in London, and in 1892 he died.

Then the present king, being the next oldest son of the king, became the future prince of Wales. The busy selectors didn't make any search for a wife for him.

"If Mary was good enough for Albert, she's good enough for George," they declared.

They were married in July, 1893. Eleven months later a son was born. They named him Edward, and today he is the prince of Wales and undoubtedly the five hundred or one thousand selectors are now looking for a wife for him.

After that babies came regularly, six altogether, in 11 years, and Mary Wettin took them to her heart and sheltered them from the royal whirl of life just as though she had married through a love match and had lived in a cottage. With every new baby she became more and more a mother. Society saw less and less of her; her calls upon the fashionable modistes became less frequent. There was always a corner in one of the huge royal palaces which she set aside as home, with all that home means.

When the other royal ladies called they found Mary Wettin sewing clothes for the children and acting just as if Mrs. Mary Wettin was her only name. These royal ladies might smoke otherwheres, if that was the fashion; but they didn't smoke in the Wettin home.

They might leave their children with the nurses and take their royal entourages on long, royal trips, but the children always went with her when Mrs. Mary Wettin traveled.

When her husband became king of England, and she the queen, the children romped in their carriage on the way home from the pompous scenes in Westminster abbey, because they hadn't been able to stop laughing ever since they had seen Albert, their oldest brother, a few minutes before, walk down the aisle of the crowded abbey in funny clothes and bow very low before papa and mamma, who sat on strange, high seats, dressed in white fur.

Compared with 1862 the Great Eastern railway runs ten times the number of trains today.

LOFTY MONUMENT PLANNED.

Texas Will Erect Tower 800 Feet High.

San Antonio, Texas, Nov. 8.—Projectors of the Alamo Heroes' Monument, which is to be erected in front of the Alamo chapel on grounds of the old Alamo fortress, are going right ahead with their plans and anticipate they may be able to begin construction within the next twelve months. The monument will consist in part of a shaft which will be 802 feet from the ground to top of dome.

The base will be eighty-five feet square and for a height of about seventy feet will be divided into various chambers, including an auditorium capable of seating several thousand persons, rooms for all patriotic organizations and a room for each county of Texas in which permanent exhibits may be maintained. Four elevators operated by electricity will travel between the bottom and top and the dome of the shaft will be offered to the United States government for the purpose of maintaining an observatory.

From a note which appears in the columns of the Ironmonger it would appear that no fewer than 150 young women in New York are about to go to school to learn plumbing, carpentering and so forth. They seem to be thoroughly in earnest. The promoters of the school obtained $50,000 and the services of six teachers with scarcely any effort.

BAD COLD? YOUR HEAD STUFFED?

One dose Pape's Cold Compound gives relief—Cure in few hours.

You will distinctly feel your cold breaking and all the Grippe symptoms leaving after taking the very first dose.

It is a positive fact that Pape's Cold Compound, taken every two hours, until three consecutive doses are taken, will end the Grippe and break up the most severe cold, either in the head, chest, back, stomach or limbs.

It promptly relieves the most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, mucous catarrhal discharges, soreness, stiffness and rheumatic twings.

Gt a 25-cent package of "Pape's Cold Compound" from your druggist and take it with the knowledge that it will positively and promptly cure your cold and end all the grippe misery; without any assistance or bad after-effects and that it contains no quinine—don't accept something else said to be just as good. Tastes nice—acts gently.—Adv.

COMBINATION

The word "combination" is not here used in its ordinary, modern, business sense.

It has reference to the happy combination that has made this bank the great success that everyone knows it to have been.

It refers to the fact that the officers are practical and successful bankers, while the directors are practical and successful business men.

That makes a combination mighty hard to beat, especially when the officers and directors all pull together.

This bank also combines the safety of a national bank with the conveniences of a savings bank. It maintains a saving department where interest is paid at the rate of 4 per cent.

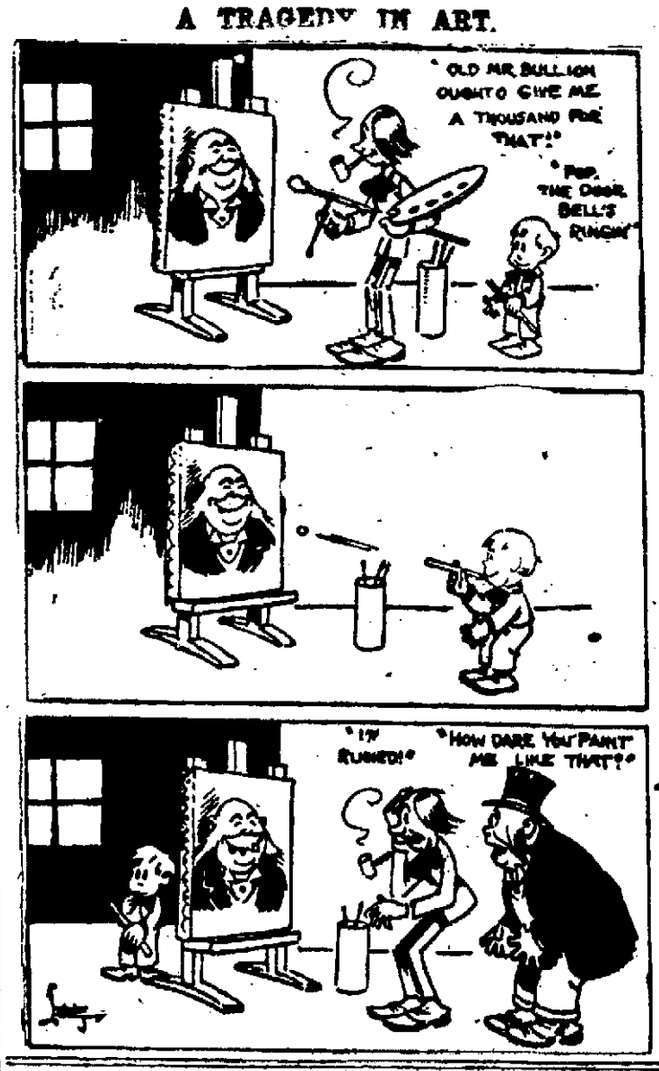
A TRAGEDY IN ART.



SHOULD COUNT YOUR DIAMONDS

Fourteen Lost; a Woman Finds 17; Results is Sorry Tangle.

PUZZLES THE COURT

New York, Nov. 8.—This tale, like all good fairy stories, has a moral, but for fear that the reader should miss it the moral will be planted right up in the first paragraph. It is: "Always count the diamonds in your sunburst before you lose it, or 'a liberal reward' is at least $150."

Mrs. Stuart Vanderbeek, of 36 Fairview avenue, Jersey City, lost a diamond sunburst a few days ago and advertised that she would pay "a liberal reward" for its return. Mrs. William Piggott, seeing the advertisement, telephoned to Mrs. Vanderbeek that she had found a sunburst, and, being a careful woman, inquired how many diamonds there were in the one Mrs. Vanderbeek had lost.

"Fourteen," promptly replied Mrs. Vanderbeek, according to Mrs. Piggott.

"This one I found had seventeen stones," said Mrs. Piggott.

"You are like the person who finds a dollar bill and asks the loser whether the number is odd or even before he will return it. Really, I never counted the stones," retorted Mrs. Vanderbeek.

That is why Mrs. Vanderbeek went to court yesterday with her attorney and Mrs. Piggott with hers. It seems that Mrs. Piggott thought a "liberal reward" meant at least $150, but, when she called to return the necklace in spite of the discrepancy of the three stones in the count, she said she was met with a threat of arrest.

Judge James Butler of the first criminal court declared there was no case before him because Mrs. Vanderbeek's attorney refused to make a complaint. Judge Butler recommended a recount, and Mrs. Vanderbeek left the courtroom still without the sunburst.

DOG TO MASTER'S RESCUE.

Boston, Mass., Nov. 8.—Back of the case of James Glynn, convicted in the Dorchester court of larceny, is a story of how his faithful dog tore a trouser leg off a policeman to prevent its master's arrest.

Policeman Thomas Chisholm went to a shanty to arrest Glynn, who had been employed by Mrs. Margaret Kelly to deliver a load of coal, when the bull terrier nipped his legs and demolished his trousers. Mrs. Kelly contracts to furnish drivers for coal dealers and Glynn is charged with collecting $18 and failing to deliver any coal.

MANY SOCIETIES HAVE QUEER WORK

One Man Don't Like to Waste the Wood in Our Matches.

USES ONLY WAX KIND

New York, Nov. 8.—There are all sorts of societies and organizations which one never hears about going ahead with some one or another kind of work that the originators believe to be important in this great city of New York, and it is a thing to make the pessimist hide his head and cease from gruimbling to know that all of these quiet and unpretentious organizations are engaged in projects which have no selfish motive, but are conducted solely with the object of benefiting the human race.

There is an earnest young woman, for instance, who has started a society for carrying home one's own packages, just because she feels that the self-indulgence of society at large in refusing to carry home even the smallest package purchased in a shop increases the shopkeeper's expenses and cuts down the wage he might otherwise be willing to pay his employes.

In vain have her friends sought to suggest to this young woman that if the public carried home its packages it would be unduly burdened, with the result of depriving many many worthy drivers of delivery wagons of the means of earning their daily bread. The young woman refuses to listen to such arguments, but insists on sacrificing herself on the altar of her small and medium sized packages. She does consent to have large packages and those containing dripping substances, such as mackerel, for instance, delivered in the usual manner. She has found great difficulty in making converts to her plan, but her personal ardor continues undiminished despite the scarcity of membership.

Another young woman with somewhat socialistic leanings has organized a society for making one's own bed instead of having the servant do it. The time is bound to come, says the bed making advocate, when we shall all be obliged to do a certain amount of manual labor, because socialism or something akin to it is sure to triumph before long, and we might as well prepare ourselves for the future by doing such manual labor now as is involved in making our own bed. So she has organized a society of persons pledged to make their own beds every day in the year. She has had more members to join than the parcel carrying young woman, but her membership is not as yet overwhelming.

It is one of the stronger sex who has organized a society all the members of which are vowed not to use wooden matches. He himself will use only wax matches because he objects to large quantities of trees being chopped down so that wooden matches can be made of them. "What is the use," he says, "of our protecting the forests from fire by the expenditure of great sums for the guards and then deliberately burning up whole forests of trees every year in these wooden matches?" Almost everyone sympathizes with this point of view, and it is possible that in time the anti-wooden match society will be quite large.

When you have a bad cold you want the best medicine obtainable so as to cure it with as little delay as possible. Here is a druggist's opinion: "I have sold Chamberlain's Cough Remedy for fifteen years," says Enos Lollar, of Saratoga, Ind., "and consider it the best on the market." For sale by all dealers.—Adv.

The natives of Hawaii are large consumers of albatross eggs, which are secured principally from the Island of Layson, in the Pacific, not far away from the Hawaiian group. These eggs are so plentiful on this island that they are gathered in wheelbarrows and carried to the shore in boxes and loaded on a small industrial railroad.

Here is a woman who speaks from personal knowledge and long experience, viz., Mrs. P. H. Brogan, of Wilson, Pa., who says: "I know from experience that Chamberlain's Cough Remedy is far superior to any other. For croup there is nothing that excels it." For sale by all dealers.—Adv.

BASEBALL ATHLETICS

ATHLETICS LOOK GOOD TO REPEAT

With Good Pitching May Break Into the Race of Next Year.

MONEY AN INCENTIVE

Chicago, Nov. 8.—The Boston club of 1903 came back in 1904. The Detroit team of 1907 repeated in 1908 and 1909. Connie Mack won in both 1910 and 1911. So in ten seasons the failures to repeat are limited to the Athletics of 1905, and to the White Sox of 1906. The belief that Boston will not be a two-time victor is based on the presumption that Stahl's men cannot again go through a complete season without a slump, and that Wood, who pitched his team to the pennant, will not be able to do the work in 1913 that he did this year.

Had the Red Sox suffered one little run of hard luck no one knows what might have happened. But the chances are that either Washington or the Athletics would have won the race. It is fair to assume that Boston would have been slow to come back. It was off its stride at Washington ten days before the world series started, and it was not back on its feet when that series ended, nearly three weeks later. Had Hooper been crippled, or Wagner disabled, New York would now be the champion of the world. It was a tight squeeze, as everybody knows. Each of these players saved one game single handed and helped to win others.

Mack's team is likely to be the one that Washington will have to beat to win the flag. Consider the thing impartially, weigh all of the facts, and the Athletics should again be the favorites for the big honors. But for conditions that never have been fully exploited in print, the Athletics almost undoubtedly would have won for a third time. Attacks of swollen craniums and failure to observe training rules put the Athletics out of it. At one time, after the season was well advanced, they had a possible chance. But it was then too late, and they could not come back, as they did the year previous, when they cut down a bigger Detroit lead than Boston possessed at the time referred to.

In Mack's case the question appears to concern itself principally with the pitching. If the veteran leader gets slab work he has a grand chance to win. There will be no midnight joy riding by his club next season, and there will be an abstinence from the cup that cheers. Either that or some landmarks will disappear. And Mack is preparing himself for the latter contingency. One thing that he does not have to concern himself about is his infield—the one really high-class department of his team. These are all youngsters, mostly good actors, and all amenable to discipline. It is a quartet whose hitting strength, backed by ordinary batting elsewhere, makes it possible for the team to win with pitching a little less classy than that a team like Washington must possess. The Athletics' outfield never was first class, and suffered greatly by the loss of Danny Murphy. But even if his captain does not play, Mack has Oloring, Strunk and Maggert, of his veteran forces, and young Murphy and Walsh, of the juniors, besides some recruits. He can get a fair set of gardeners from this bunch.

Pitching, as said, is the thing that will concern the leader of the Athletics. Coombs was not especially good this past season, and is likely to have a big year in 1913. Bender has learned his lesson, and may be expected to do good work when used. Plank cannot work often, but is still hard to beat when pitched once in five days, or once in four days if he has left-hand clubs to oppose. The team has Brown, Houck and Coveleskie, all of whom did fairly good work, besides a lot of recruits like Stevenson, the University of Minnesota crack, and other college and minor league artists. There's no way in which the Athletics can be figured out of the fight for the next flag. That $4,000 each that they lost this fall will be a major impelling motive for the best efforts of the men. The Athletics don't like money any better than a miser loves his gold, and they are not over the world's series soreness yet.

CADILLACS SHOW SPEED IN GAMES

Take Two in Three from Rurode's at the Metropolitan Alleys.

SOME GOOD TOTALS

In the Fort Wayne Bowling association games at the Metropolitan alleys the Cadillacs displayed enough speed to take two in three from the Rurodes. Ed Harkenrider led both teams with an average better than 200 for his series. Haas won honors for the Cadillacs.

After the Metropolitans had lost two games they put on a little steam and took the third from the Wolf & Dessauer club. Connelly and Swain rolled high averages for their respective teams. The scores:

LEAVES FOR LOS ANGELES.

Joe Mandot Preparing for Meeting With Joe Rivers.

New Orleans, La., Nov. 8.—Joe Mandot, the local lightweight, who fought a ten-round no-decision bout here last Monday night with Ad Wolgast, today left for Los Angeles, where on Thanksgiving day he will again meet Joe Rivers in a twenty-round contest. Last Labor day he gained a decision over Rivers at Los Angeles. Wolgast left for San Francisco Wednesday. In Monday night's bout a majority of newspaper writers declared Mandot winner.

DEPARTMENTS IN SESSION.

Preparations for American Labor Federation Convention.

Rochester, N. Y., Nov. 8.—The preliminary meetings to the annual convention of the American Federation of Labor which will open here on Nov. 11, continued today with sittings of the union label and metal trades departments.

The conviction of Gompers, Morrison and Mitchell for contempt of court and the fine imposed in the Danbury hatters' case are likely to be the chief topics of debate at the convention. Many delegates expressed themselves as confident that the federation will adopt a radical change in policy at this convention.

THESE FELLOWS GET A SHARE OF CREDIT FOR THE SHOWING MADE BY THE FRIAR FOOT BALL SQUAD.

Introducing the Wilts and Mr. Scheiman. This trio of athletes represent some of the bone, sinew and speed of the Friar football squad and they have been in action enough this season to show that they are all there when it comes to doing the right thing at the right time.

"There's one good thing about the Friars aside from the fact that the management tells the truth when it speaks of the teams that are to be presented in the exhibitions at the baseball park.

This one thing is that there are no stars on the team—no, not just that, but every man goes in to win and whether he wins or not he comes out feeling that he has done his best and that his pards are all with him. Therefore, when it is said that there are no stars it is meant to convey the impression that individual work is not part of the plan of attack and defense developed by Coach Laird and his victorious team.

All three of these fellows look like athletes and they are not stalling one bit, as they are just what they look like, and along with the other Friar football players they are proud of the showing made thus far by the best lot of gridiron talent the city has ever possessed. All of these men expect to help defeat Topeka, carded for the next conflict.

See the look of bold determination in their faces! This was not put on just for the occasion. It is the same look they wear in actual football warfare and it means trouble for the opposition.

WELCHONCE HITS THE BALL.

Former South Bend Player Made a Good Batting Average.

Harry Welchonce, right fielder on the 1910 championship South Bend team of the Central league, led the Southern league in hitting last season with an average of .325 in 123 games. No other player playing 100 games or more came close to his record.

Welchonce was drafted by the New York Americans this season and is conceded a good chance to stick. He was brought to South Bend by Eddie Wheeler from Grand Rapids when Bert Annis owned both clubs. He was with the Philadelphia Nationals in the spring of 1911 but did not land.

Other ex-Central performers in the south during the past season were Earl Sykes and Ray Spencer, of the Vets; Clyde Wares, formerly of Zanesville; Del Young, of Fort Wayne, and Rudy Summers, former Vet. Spencer hit .275 and Sykes, who will be back to first base for Dayton in 1913, batted for a mark of .236. Wares led the organization's second sackers in fielding, was the base copping chief with 42 thefts and hit .275. Del Young swatted for an average of .265.

JENNINGS WANTS M'GINNITY.

Would Like to Have Iron Man to Coach Pitchers.

Newark, N. J., Nov. 8.—If Hughey Jennings, manager of the Detroit Tigers, has his way, "Iron Man" Joe McGinnity, former president and manager of the Newark Indians, will be a member of the Detroit team next season. This fact was admitted by Jennings, who paid a visit to Newark on Monday. The leader of the Tigers tried to get in communication with McGinnity, but was unable to locate the "Iron Man."

Jennings considers that McGinnity is one of the greatest pitchers the game ever produced, and in his opinion the former Newark manager is still able to hold his own in the big show.

"I would be delighted to land McGinnity for my club next season," said Jennings. "With the 'Iron Man' in charge of the young pitchers on our club, I believe the veteran could coach these twirlers and impart to them knowledge that would be of a great benefit to the club."

OBJECT TO IMPROVEMENT.

Misapprehension Causes Remonstrance to Beaver Avenue Plan.

Secretary C. J. Steiss, of the park board, in investigating the remonstrance to the proposed opening of Beaver avenue, says he found last night that many signatures had been attached to the remonstrance through a misapprehension. They had been advised by leaders of the remonstrance movement that they will be compelled to pay a high assessment for the improvement, and that it is proposed to pave the street and lay cement sidewalks. As a matter of fact the board does not contemplate the latter improvements, and the assessments will run from $5 up. Those lots which are in close proximity to proposed improvement will be assessed considerably higher than those farther away.

The residents of Beaver avenue will be given a hearing at the meeting of the park board tomorrow afternoon, but the project will be defeated if a majority of the property owners sign the remonstrance.

CASHED WORTHLESS CHECK.

Frank Kabisch, West Side Butcher, Gets Stung for $12.

Frank Kabisch, proprietor of the meat market at Rockhill and Wilt streets, is minus $11.30 cash and 70 cents' worth of meat because he cashed a worthless check for $12 yesterday morning.

A woman entered the market early yesterday and explained that she had taken quarters in the neighborhood and that she expected to do her trading regularly with Mr. Kabisch. After buying 70 cents' worth of meat she tendered a check on the German-American bank, signed by one Mr. Adams, who, she said, was a carpenter. She indorsed the check under the name of Mrs. Davis, and after receiving her change stood talking to Mr. Kabisch for fully fifteen minutes. Mr. Kabisch discovered that the check had been forged when he called up the bank after the woman had left the place. The police are investigating.

MURPHY LOST IN SELLING HOFMAN

Good Player and Entitled to More Money for His Work.

CHANCE LIKED HIM

Chicago, Nov. 8.—President Murphy's enmity against Artie Hofman cost the Cub baseball team one of the best players on its roster, according to Manager Chance. Hofman was the club's leading hitter and base runner up to the time he had his clash with Murphy in the winter of 1911. For three years he led the team in every department of the game, but after his set-to he lost interest, grew sour and refused to give the team his best efforts because there were several players who were getting higher salaries. Had Hofman been paid according to his true value to the team he would have been the greatest outfielder in the league, Chance thinks.

"Murphy ruined Hofman when he wanted to give him only a salary of $3,000 a year after leading the club in hitting and base running," said Chance. "If it had not been for me Hofman would not have been signed for $5,500. He did it to please me. There were a few players getting more money and he wanted as much, and he was entitled to it. Murphy tried to trade him for three seasons, but I opposed it, as I know he was a great player. He kept at me so long that I finally consented.

"Hofman is not through by any means, and if he recovers his health he will give Pittsburgh the greatest outfielder it ever has had. Arthur is a corking good sticker, and there is not a better base runner in the league. Dreyfuss will pay him the money and he will have a wonderful season next year. As a fielder Hofman is remarkable, and I was sorry to lose him."

FIRE WIPES OUT TOWN.

But Three Small Business Houses Left in Brookneal, Va.

Brookneal, Va., Nov. 8.—Fire of an unknown origin almost entirely wiped out this little town today and caused a loss of approximately $100,000 hardly one-fourth insured. No lives were lost. Twenty-five buildings, including the post-office, a bank, eleven stores, a tobacco warehouse and the Baptist church were burned. Dynamite was used to check the flames as there was practically no fire fighting facilities to cope with the blaze. The population is about 500, and there are only three small business houses left.

Just received another shipment of our special quality $5.00 velour hats in all popular colors.

The comment of party newspapers make it every day more evident that the bill will encounter serious opposition when it reaches the imperial parliament.

MOTHER LOVE AND MOTHER THOUGHT

First Conference of Indiana Branch of Mothers' Congress

WILL BE HELD SOON

Indianapolis, Nov. 8.—The first conference of the Indiana branch of the National Congress of Mothers' and Paren-Teachers' association will be held at Huntington Nov. 11 and 12. Mrs. Frederick Schoff, president of the national congress, will attend and take part in the program.

This is the first meeting of the Indiana branch of the National Congress of Mothers' and Parent-Teachers' association since its organization here in June by Mrs. Orville T. Bright, of Chicago. Mrs. Frederick Hoke, of Indianapolis, president, will preside.

The general objects of the congress are "to carry the mother-love and mother-thought into all that connects or touches childhood in the home, school, church or state; to raise the standard of home life; to develop wiser, better trained parenthood; to bring into closer relation the home and the school."

In carrying out these purposes the congress wishes to bring about legislation extending the scope of juvenile courts and probation for the minors; to promote high ideals of marriage and the maintenance of its sacredness and permanency; to teach young people the proper care of children and to make them better fit for the duties of parenthood.

The general purposes of the state branches of the congress are to promote the organization of the affiliated clubs in all parts of the state, and to co-operate with the educational and legislative branches of the government to get the best method of physical, mental and moral training of the young; to uplift and improve the conditions of mothers in all walks of life.

The conference is open to all interested in the welfare of the child, and representatives of parent-teacher associations, mothers' clubs or child study clubs will be welcomed as delegates.

The meetings will be held at the Central Christian church and will begin with a reception on Monday from 4 to 6 o'clock, followed by a dinner served by the women of the church. In the evening a welcome will be extended to the society by Mayor Milo Freightner and C. B. Williams, of the Huntington Commercial club. Mrs. Frederick Hoke will respond. Mrs. Frederick Schoff, of Philadelphia, will give a talk on "Aim and Purpose of the Congress"; Dr. J. N. Hurty will talk of "The Child in the Making," and music will be given by the high school orchestra and chorus, and a quartet.

Tuesday morning will be devoted to business, a round table talk led by Mrs. Schoff and an address by Dr. Mary E. Jackson, of Hammond, on "Patriotism in the Schools."

The afternoon meeting will be opened with a song by the children of the public school, and an address by J. M. Scudder, superintendent of the Huntington schools; Miss Irene Myers will sing and Mrs. George T. Eggers, of Chicago, treasurer of the Illinois branch of the Mothers' Congress and Parent-Teachers' association, will speak. Tea will be served by Miss Mary Grayston's domestic science class of the Huntington schools. Reports of committees will close the conference.

The First Mothers' club, the Child's Welfare club, the Mothers' Culture club, the Child Study club and the Huntington Commercial association, with the cooperation of the faculty of the Huntington public schools, will have charge of the entertainment of the convention, with the following chairmen: Mrs. Charles A. Butler, Mrs. W. D. Redrup, Mrs. F. H. Bowers, Mrs. W. S. Powell, Mrs. Jessie Gierhart, Mrs. A. J. Freed, Dr. M. H. Grebs, Mrs. C. H. Kiracofe and Mrs. Win Runyan.

SHE ADVOCATES MODERN FLATS

Practical Housekeeping Expert Says It Solves Many Problems.

IT HELPS HOUSEWIFE

New York, Nov. 8.—"Small modern apartments have accomplished much toward emancipating women from the killing slavery and drudgery of housework," said Miss Mabel Hyde Kittredge, president of the Practical Housekeeping Centers association, sitting in the attractive living room of one of her model flats, maintained in a densely populated tenement district, for the schooling of foreign children. She said several things in favor of the modern flat.

"These model flats are furnished in a way that brings them within the means of all families. They are attractive. One may go far and find many less homelike apartments. Also the little homes are easy to clean, the furnishings are sanitary and the decorations are artistic and yet inexpensive.

The modern flat, properly conducted, will solve many problems. Take this little four-room flat; it will accommodate a family of five, possibly six on a pinch, although we do not advocate crowded quarters. Here you will not find the confusion and clutter common to the ordinary tenement. We have done away with the dust-collecting decorations. We have four flats in all, and gradually we are bringing a knowledge of right living and sane home-making to the young women of the neighborhood. This work should be introduced in the public schools and taught to the younger children. Last year twenty thousand children left school before they had reached the seventh grade, and not one of them had been taught the first thing in the art of making a home. Among them were many of the future mothers of the next generation. The majority of them came from foreign quarters and these children, above all others, should be taught home-craft.

"Much has been said in condemnation of the small apartment. It has been said that it narrows lives and mental activity; that it breeds a race of mentally and physically unsound men and women. I believe, on the contrary, that the average modern apartment, with its labor saving devices, is helping the woman to a broader outlook and affording her an opportunity to develop whatever latent instincts for the professions or arts she may possess.

"Look at the housewife of fifty years ago. She was a spiritless slave to drudgery. Her entire time was devoted to cleaning, scouring and cooking. Unless she had servants she had absolutely no time to herself. She had no chance for mental development; she did not keep pace with her husband. How could she? Her world was in the narrow confines of domestic drudgery.

"We are trying to teach the young girls of the foreign quarters American methods. We are teeching them how to maintain hygienic conditions by simple methods, and how to do housekeeping with a minimum of time and labor. Here you have another point in favor of the small apartment, the simplifying of the servant question. Women have come to regard the servant in a small apartment as a nuisance rather than a help.

"Rugs, heavy draperies and upholstered furniture are not suitable for small aptrements. They collect too much dirt"

BEAUTIFUL MISSION STYLE DINING SET

Large Attractive Buffet--Massive Extension Table--Five Fine Chairs--One Heavy Arm Chair

How would you like to serve your Thanksgiving dinner in a dining room as splendid as this one? No reason why you should not. This excellent dining room suite is another of Hadley's sensational outfit offers by which you may save about 30% in furnishing an entire room in your home in such a manner that it will be the constant envy and admiration of all who see it. Tomorrow is an opportune day to double the attractiveness and convenience of your home and save the regular price of any one of the single pieces.

THIS IS THE AGE OF MISSION FURNITURE.

As all other periods in the world's history have handed down a style of home furnishings, personifying the taste and elegance of that era; so is the mission style of furniture recognized as the one reflecting all the culture and attractiveness of the modern home. It is used wherever artistic good judgment and a sense of the beautiful and durable is to be found.

THE MATERIAL AND CONSTRUCTION.

This suite is made of specially selected solid quartered oak, superbly finished in the every popular golden oak or Early English. It was built by skilled workmen in the most careful manner, and is a striking example of the master cabinet maker's art. This, coupled with the massiveness of the pieces themselves, assures you of a dining room set of lasting beauty and durability.

SPECIAL FEATURES.

The chairs are of the strongest box seat pattern, the seats of which are modeled in the form-fit design. The table has a solid pedestal, the legs of which are so heavy and extensive that at all times the table retains perfect solidity and equilibrium. The buffet is mounted with a high-grade bevelled French plate mirror.

THE PRICE.

As usual, the price of the set complete is about 30 per cent. lower than the total of all the prices on the separate pieces. We doubt if a dining room in this city was ever furnished as complete in elegance, convenience and comfort as this one at such a low price. If you desire we will save you an outfit for your Christmas upon the small payment of the $3 cash deposit. These outfit bargains must be grasped while the opportunity affords.

THE REAL CLASS OF THE ENTIRE OUTFIT.

This dining set has all the distinguished individuality found in the furnishings of all stylish and up-to-date homes. It embodies every desirable feature that appeals to the fastidious homemaker who uses good judgment and economy in making a home where life is worth living. It is a world-beater from every standpoint of quality and service.

PLAIN PRICE TAGS ON NEW FURNITURE.

NOVEL AIR TRIP PLANNED.

Western Aviator Will Travel Up Columbia River in Hydroplane.

Spokane, Wash., Nov. 8.John Bryant, a San Francisco aviator, announced while in Spokane with Aviator Walter Edwards that he will start from Astoria, Ore., June 1, 1913, on a trip in a hydroplane up the Columbia river in an effort to establish a record. The trip will take him through Oregon and Washington and into Canada. "I will have a new type of double-propeller, headless hydroplane," said Bryant, "and will follow the Columbia river as far as I can find sufficient depth. I have had considerable experience with gas motors and will be able to take care of the machine myself."

GIDEONS THEIR JAIL OUTLET.

Mashers Take Pledge to Join and Stick to Wives.

Milwaukee, Wis., Nov. 8.—"If you men will join the Gideons and promise me that you will never look at another woman except your wives, I will give you a chance," said the judge in district court when Abraham Wilson and William George, two salesmen, were brought into court with two girls on charges of violating the mashing ordinance.

"You have our promise and you can bet on it that one night behind the bars has been a lesson that we will never forget," replied the men, as they thanked the judge for not sending them to the house of correction, as he first said he would.

MAKE A BIG SUPPLY

Sufficient to Last Throughout the Winter.

Splendid Home-Made Cold and Cough Medicine Made from Pure Essence Mentho-Laxene; Cheap and Effective, Too.

Usually a family spends two to five dollars every winter for cough, cold, and catarrh remedies, buying 25c worth at a time.

For instance, a two-ounce bottle, at 25c, will contain about four-fifths "syrup" and one-fifth "medicine." That's paying too much for ordinary syrup; you can make a half gallon of syrup for 25c.

The syrup, extra bottles, labels, corks, cartoons, etc., make this method of buying very expensive by the end of the year.

A little thought and wisdom will save any family several dollars and give them purer and better medicine, too.

Make a simple syrup with a pint of granulated sugar and a half pint of boiling water; then buy the pure concentrated essence Mentho-Laxene at your drugstore (2½ oz. bottle) and empty it into a pint bottle or jar and then fill it up with the syrup.

Now you have a season's supply of the purest, best and most promptly effective cold and catarrh cure and cough medicine that it is possible to obtain. It keeps indefinitely, and cures young and old of colds, catarrh, coughs, bronchitis, hoarseness, shortness of breath and all lung and bronchial trouble. It is the only remedy that cures coughs and drives catarrhal matter out of the system, by its tonic-laxative action. It improves the appetite, reduces fever and strengthens the system, thus avoiding chronic ailments and consumption.

Directions with each bottle of Essence Mentho-Laxene tell how to make and how to take. The manufacturers also guarantee to refund money to any one not pleased by its thorough effectiveness.—Adv.

Babies and Mother Kneel Side by Side in Oozy Marshes to Pick the Luscious Cranberry for Your Thanksgiving Sauce.

HUNDREDS OF LITTLE CHILDREN WORKING LONG HOURS IN MOSQUITO INFESTED BOGS, MANY OF THEM MERE BABIES.

WHAT ONE FAMILY EARNED PICKING CRANBERRIES.

The "D" family employed at one bog was composed of mother, father and six children. The following is a table of their pickings:

	Age.	Average Per Day.
Father	39	20 pecks
Mother	38	17 pecks
Tony	17	17 pecks
Rose	15	13 pecks
Annie	13	10 pecks
Mary	11	5 pecks
Angelo	8	3 pecks
Teresa	7	4 pecks

In the aggregate, the three little children, working a nine-hour day, added $10.43 to the family treasury in a week of seven days. For the week the entire family, laboring a total of 504 hours, earned between $65 and $70!

(By Harry Burton.)

Trenton, N. J., Nov. 8.—Little Joe Areno is three years old. Some foolish, sentimental folks might call him "nothing more than a baby."

Some humane investigators found Joe, his baby fingers lopping off cranberries in the Delaware swamps. And when that crop was garnered, with his parents and brothers and sisters, he kept moving on northward until, the last of October, he was finishing his period of infant servitude in the mosquito-harassed bogs of New Jersey.

The cranberry crop begins to ripen early in September—just when school is opening. The season lasts eight or ten weeks, the berries ripening first in Delaware and later in New Jersey and Massachusetts. During this time a horde of trained pickers, composed generally of whole families from the grandparents right down to the babies, moves through the bogs, leaving shorn bushes in their wake. And they are exploited, investigators declare, every inch of the way.

To begin with, a majority of these pickers are children, slaving in these loathsome bogs when they ought to be in school. By actual count this year there were 864 children under 14 at work on six bogs, and of this number 604 were under 10!

And do not deceive yourself that it is "healthful, open-air work." The cranberry flourishes only where it can wallow in ooze—in a swamp. Whenever the swamps get the least bit dry they are flooded by cranberry growers. For the fruit must be fat and juicy for your Thanksgiving sauce.

Into these wet, soggy marshes each fall come the pickers—the little children pickers. For nine to twelve hours a day they kneel, bent double, over the low, ground-trailing bushes—picking, picking, picking. Their knees sink in the mire and their hands are scratched with brambles. About their heads are wound wet rags in an effort to keep off the poisonous mosquitoes.

Above the child always stands the "padrone," swinging his stick and yelling continuously:

"Faster—pick faster! We gotta clean up this crop before frost comes. Hurry up! Hurry up!"

And the parents, also picking, do not interfere. For the more their children pick the more goes into the family pocketbook. The cold winter is coming on.

Then there is the measuring. The name "peck" attached to the measure in which the berries are gathered is evidently used for convenience. One of the large growers said:

"My peck boxes contain from 13 to 14 quarts. That's where we get the best of the pickers!"

The housing conditions prevailing on the bogs are terrible. Barracks and shacks accommodate from one to twenty-four families. Families of five or six persons often live in one room. One large shack, recently built, contains 24 rooms, each measuring five and one-half by six and one-half feet. A bunk, extending along the wall four feet above the floor, occupies half the room. The children sleep on a mattress on the floor underneath the bunk, which is used by the grown persons. In some of these rooms were found eight persons sleeping—four on the bunk and four on the floor. And all the windows were NAILED shut! About the walls hung soiled clothing and on a table in the corner was food. Flies swarmed all over the place and the odor was terrible.

"But," says the manager, "we cannot be expected to give these people an outing in the pine woods, can we? This picking cranberries is a business. The fruit ripens late and must be gathered before the frost comes. We pay what the work is worth. We have to keep a whiphand over them or WE lose out. If some of the children fall ill, WE can't help it. It's just a case of the survival of the fittest!"

So you can figure out for yourself what our cranberry sauce is ACTUALLY costing on the annual day of PEACE and PLENTY and JOY-FOR-ALL!

A Mighty Money-Saving Sale of **FAMOUS "STYLE-CRAFT" COATS**

Here's a Wonderful Chance To Get a Grand Garment Bargain

Right at the Beginning of the Winter Season! Don't Miss It!

OUR STORY

Our Mr. Myers has just returned from the "Style-Craft" factory, where he was fortunate in securing the entire balance of the fine stock of Coats this firm had on hand. There were about two hundred Coats in this transaction. And so favorable was the price at which he bought them that we're mighty sorry the lot wasn't twice as large.

GRAIN AND PROVISIONS.

Chicago Market.

Chicago, Nov. 8.—Fears of complications between Servia and Austria gave wheat today an upward twist. December started at 89⅜c to 89¼c and rose to 89⅝c. Smallness of receipts made corn firm. December opened at 50c to 50¼c and ascended to 50⅜c.

The close was nervous, with December ⅛@¼c per higher at 89@89⅛c.

Oats trailed upward after other grains. December started at 31¾c and advanced to 31⅝c.

The close was steady, with December ½c off at 49⅛@49⅜c.

Provisions hardened as a result of higher figures for cereals and hogs. Opening sales with January were $18.60 for pork, $10.57½ to $10.60 for lard and 10.05 for ribs.

Veal—Market steady, 9@14c.

THE DAY ON WALL STREET.

New York, Nov. 8.—Prices tended generally lower at the opening of today's stock market. Canadian Pacific yielded a point and Southern Pacific, St. Paul, Lehigh Valley and other active issues were down material fractions. The few slender gains were limited to the unimportant stocks.

The reactionary trend of the market yesterday became more pronounced today on mixed selling of long and short stocks. The heaviest issues included L. & N., Canadian Pacific, Union Pacific, Reading, Amalgamated and Steels. Bonds were easy.

The close was irregular. The market made further recovery in the final hour. Higher money being partly offset by the favorable crop report.

SON ACCUSED OF FATHER'S DEATH

Though Latter in Dying Breath Exonerated Wayward Boy.

FORTVILLE TRAGEDY

Greenfield, Ind., Nov. 8.—Charged with shooting and killing his father, Dr. A. A. Stuart, aged 68, at Fortville near here last night, Guy Stuart, his son, was placed in jail here early today by Sheriff Jesse Cox.

Reports that the son had confessed to the shooting were denied by the sheriff. "You didn't do the shooting, did you, Guy?" Sheriff Cox said he asked the prisoner, who replied, "I wouldn't tell you if I did."

Cox said that was the only reference made to the crime.

Dr. Stuart heard someone at the back door just after he had gone to bed. He began an investigation and saw a man running down the back yard. He called on the man to stop and his answer was a bullet. Dr. Stuart declared it was not his son, with whom he had had trouble, who did the shooting. Dr. Stuart was a widely known physician. The prisoner is 28 years old.

Defends Son With Last Breath.

The shooting occurred at 8:30 o'clock in Dr. Stuart's own dooryard, and the wounded man, conscious to the last, defended his son with his dying breath.

He said: "I had just gone to bed when I was awakened by someone trying to get into the house. I pulled on part of my clothing and stepped down the back stairway. The back door was open. I picked up a hatchet in one hand and a hammer in the other and started in pursuit. I saw a man at least twenty feet ahead of me. I yelled at him to stop, but instead he turned and fired. 'No, no, it was not Guy.'"

Dr. Stuart died at 10:30. The story of the shooting spread like wildfire all over the countryside. Farmers took up the search for the supposed slayer, but all the posses were called off when the rumor became current that the son had confessed.

There Had Been Trouble.

It has been known for some time that there had been trouble between father and son. This trouble culminated in a personal encounter recently. It was reported that young Stuart had confessed to John Myers, of the Myers hotel, and that the confession was overheard by Mrs. Myers. Myers later in the evening denied that Stuart had said anything to him about the shooting.

Sheriff Jesse Cox, of Greenfield, was notified. The wife of Dr. Stuart was in Indianapolis visiting her daughter, Mrs Eugene Lowry. Herbert Lytle, an Indianapolis automobile racer, rushed the mother and daughter to this city, but did not arrive until an hour after Dr. Stuart's death.

DEMOCRATIC RATIFICATION.

Jollification May Be Called Off by Jefferson Club.

Officials of the Fort Wayne Jefferson club will meet this evening at democratic headquarters for the purpose of discussing the advisability of holding a ratification in this city, over the democratic victory.

At this time conditions do not look favorable for such an event, because no suitable place has been found for the jollification. It was hoped to secure the Princess rink, but the roller skating season is open, and it will be impossible to get that place. It is believed that neither of the local hotels would be large enough to accommodate all who desire to attend.

At the meeting this evening the club officials will discuss the matter thoroughly and arrive at some definite agreement.

LOCAL FORECAST.

Fort Wayne, Ind., Nov. 8.—For Fort Wayne and vicinity: Fair tonight and Saturday.

GENERAL FORECAST.

For Indiana: Fair tonight and Saturday.

For Ohio and Lower Michigan: Generally fair tonight and Saturday.

SUMMARY OF WEATHER CONDITIONS

The eastern storm whic his passing off the New England coast this morning has given heavy rains since yesterday morning over the middle and North Atlantic coast districts, most stations in that section reporting twenty-four hour rainfalls in excess of one inch. Another storm is passing eastward across the Lake Superior region and is giving some rains over that section, while a third storm covers the north Pacific coast district. Over most of the central and western states fair weather prevails with moderate temperatures.

The Lake Superior storm will move eastward but will give no precipitation in this section, where fair weather will continue tonight and Saturday, with slight changes in temperature. No very cold weather is indicated for the next two or three days.

HAD ACCIDENT POLICY ON T. R.

Shooting by Shrank Will Bring Mr. Roosevelt $125 Per Week.

OUTLOOK BOUGHT IT

New York, Nov. 8.—Col. Roosevelt stands to receive $125 a week for the period during which he was incapacitated by reason of his wound. Mr. Roosevelt may not know just how well off he is, since it was the Outlook, of which he is contributing editor, that took out the accident insurance policy on which payments will be made.

The fact that the Outlook took out a $25,000 policy for Col. Roosevelt, good for $125 a week in case the holder was incapacitated, doesn't mean that that is the sum at which the Outlook values the services of its contributing editor.

Refuse to Reinsure Risk.

Early in the campaign and before the progressive party was born, that publication got an accident policy of $100,000 for Mr. Roosevelt.

If the company in which Mr. Roosevelt was insured at that time hadn't found that it was impossible to reinsure a risk on so active a politician, there would have been $500 a week due Mr. Roosevelt for the period during which he was laid up.

It could not be learned today what company saved money by deciding that the progressive leader was a poor risk.

Tells of Insurance Policy.

When asked about the matter today W. B. Howland of the Outlook gave out the following statement;

"The facts relative to the accident policy for Mr. Roosevelt are very simple. On April 20, 1912, on its own responsibility, but with the purpose of protecting Mr. Roosevelt and his family, the Outlook took out an accident policy of $100,000 for Mrs. Roosevelt, paying the premium for one year. On May 2 the full premium was returned and the policy was canceled by the company in accordance with the provision recorded in the policy itself.

"The reason for cancellation, stated by the company, was that they found it impracticable to reinsure the risk, as is customary in policies of this size. A little later, namely on June 14, 1912, a policy of $25,000 was issued by the Casualty Company of America, which policy is still in force. No indemnity has so been paid."

Since the Outlook statement says that no indemnity has been paid it is supposed that no decision has been reached as to just how long Mr. Roosevelt was kept from his work by the bullet wound.

Assassination Hazard Too Great.

Insurance men were not surprised at the statement that the company in which the Outlook insured Mr. Roosevelt for $100,000 was unable to reinsure the risk. It was the assassination hazard, they said, that made it hard for men leading political movements to get accident insurance.

It is said that several years ago a Hartford company refused to issue a policy for $50000 on Mr. Roosevelt and that neither President Garfield nor President McKinley was able to secure accident policies.

Mayor Gaynor, it is said, did not carry an accident policy at the time he was shot.

NOW ASSUME AN HISTORIC VALUE

Many Things at Princeton Invested With a New Interest.

WILSON'S OLD ROOM

Princeton, N. J., Nov. 8.—With the election of Woodrow Wilson as the twenty-eighth president of the United States a great many things in Princeton have assumed an historical value. Chief among these is the room occupied by Woodrow Wilson.

Valculon Ellicott, a sophomore, who now occupies room 7 in Witherspoon hall, did not know when he got it that it was historic. When he put a black coat of paint on the mantel and puttied up its various carvings of intials and records of athletic victories he feared that he covered up the intials of "T. W. W., '79," for it was as "Tommy" W. Wilson the president-elect was known in his college days. It is said he later dropped the first name so as to have a name of thirteen letters because he believed thirteen a lucky number.

No initials can be found, however, that mark the one-time presence of Wilson, the undergraduate. College flags and the decorations of another age adorn the walls but above the study desk is a campaign drawing of Woodrow Wilson with his signature on it.

"I suppose Woodrow Wilson never dreamed," said Ellicott today as he showed his room to a number of visitors, "that above the spot where he studied there would hang some day a picture of himself, the president-elect of the United States."

Ellicott's mother is an intimate friend of Mrs. Wilson, and was president of the women's Wilson and Marshall club of Baltimore. When Mrs. Wilson visited Baltimore recently she was entertained at the Ellicott home. Young Ellicott, however, got the room in the regular drawings held annually by the college in which the numbers of all rooms are placed in a box and drawn for by the students.

The Woodrow Wilson room is on the second floor of Witherspoon hall, a gray stone building erected in 1877 when Wilson was a junior in college. He roomed there in 1877 and 1879. On his walks through the campus in the last few days the president-elect has looked up affectionately at the window of his old room and pointed it out to those accompanying him.

"I did a lot of studying in that room," he said. The room overlooks the open country where the battle of Princeton was fought in revolutionary days. Only a few hundred yards away is Nassau hall, where the first president of the United States came to receive the thanks of the continental congress for his success in the revolution. In another direction not far away is the building of the American whig society, founded by another Princeton graduate, James Madison, who also became a president of the United States.

GIRL BRIDE SEEKS DIVORCE.

Admits She Swore Falsely to Her Age in Order to Wed.

Jeffersonville, Ind., Nov. 8.—On Oct. 27 Paul O'Connor, who swore he was 21 years old, and Miss Geneva Shanks, who swore she was 18 last January, both of Louisville, were married by Oscar L. Hay, justice of the peace. The bride has filed suit in Louisville for divorce, alleging that she was only 17 and O'Connor only 18.

VILLAGE SAVED BY 'PHONE GIRL

Summoned Aid to Fight a $75,000 Blaze at Hebron.

OTHER STATE NEWS

Valparaiso, Ind., Nov. 8.—Prompt work by Miss Bernice Griffin, a telephone operator, saved the town of Hebron, this (Porter) county, from destruction by fire. As it was, several buildings were consumed and a loss of $75,000 sustained, with insurance of about half that amount.

An overheated furnace in the basement of Smith Bros.' hardware and furniture store started the blaze which destroyed that structure, the Masonic Temple, the G. A. R. building, the Stevers block, Miller and Crawford, boots and shoes, and the Dilly building.

R. Hines had all household effects destroyed. The Masonic society saved a part of its paraphernalia. The flames jumped across the street and seriously damaged the K. of P. hall, Dr. Freere's building, Dr. Blood's one-story frame structure, the Enoch Bagley building, J. M. Morrow's building, Teetz meat market, J. D. McAlpin restaurant, J. Pierce restaurant, Gene Morgan bakery, P. E. Hoshaw, jewelry, and Ernie Wells' barber shop.

Miss Griffin employed all emergency calls to notify the inhabitants of Hebron of their danger. This action completed she called Valparaiso, Crownpoint and other towns for help. The Crownpoint fire department sent a company to the scene, but en route they became stuck in the mud and were forced to return.

Citizens in automobiles from this city loaded their machines with hose and other fire fighting equipment and assisted in the subduing of the flames.

While standing in the rear of the Smith Bros.' building, Henry Hogan and John Morrow were knocked down and painfully bruised by an explosion of dynamite caps in the store. Ben Nichols and Dr. Edmonds, responding to the telephone operator's alarm, attempted to fight the early blaze at Smith Bros.' Their clothing caught fire and bystanders rolled them in the dirt and quenched the flames, after the men had been seriously burned.

WORKMAN IS ELECTROCUTED.

Carries Electric Lamp Into Boiler and Current Proves Fatal.

Wabash, Ind., Nov. 8.—Chester Frazier, 28 years old, employed at the Syracuse Screen and Grill company's plant at North Manchester, was electrocuted while at work last evening. Frazier had crawled into a boiler to make some repairs and carried an incandescent light with him. Fifteen minutes after a fellow worker called him, but received no answer. An investigation was made, which disclosed the fact that the man was dead. His lifeless body was pulled out and two small burns indicate where the current had entered the body. It is believed that the insulation had worn off the wire, permitting the current to pass into Frazier's body.

SEARCH FOR MISSING BODY.

Wabash Authorities Believe Stranger Took Life by Drowning.

Wabash, Ind., Nov. 8.—An unidentified man is believed to have committed suicide in the Wabash river here yesterday, but despite a search made by the police, the body has not been found. The man engaged accommodations at a rooming house here yesterday and throughout the night mingled with other boarders. Early yesterday morning he went to his room, where he removed his shoes and coat and then left the house saying he intended jumping into the river nearby. The police were called and his footprints were followed to the stream, where all trace was lost.
